Columbia Elementary School is on Facebook. Um dich mit Columbia Elementary School zu verbinden, tritt Facebook noch heute bei. Weitere Personen Names Columbia Elementary School anzeigen Learn more about how to get involved Rental & Sale Homes near this school This school is ranked below average in school quality compared to other Schools in New Mexico. The students here are doing an academic improvement below the year-on-year average, ... In addition, this school performs below average as it is serving disadvantaged students and students perform below average in state tests. Students at this school are making less academic progress from one grade to another than students at other schools in the state. Low progress with low test scores means students are starting at a low point and falling even further behind their peers at other schools in the state. Tip for parents Test scores at this school fall below the state average. This suggests that most students at this school may not perform at the grade level. Tip for parents Notice something missing or confusing? Equity Disadvantaged students at this school may lag behind other students in the state, and this school can have significant gaps in outcomes. Tip for parents Low-income and underserved percentile student achievements All other students of the ALCERNON D'Amassa ENVIRONMENT School | Las Cruces Sun-News LAS CRUCES - The availability of funding for a new Columbia Elementary School building has been called into question after the agency granting state matching funds for school projects postponed a decision on construction funding. Last week, Las Cruces Public Schools informed families and district staff that Columbia Elementary School should remain on the Centennial High School campus for another three years amid uncertainty over how to fund a \$30 million project to build a new school. Columbia Elementary, on Elks Drive in northern Las Cruces, was closed for more than a year after persistent mold infestations plagued the school since its construction 2003.An an inspection of the inner walls in 2018 revealed that a subcontractor had installed steam barriers backwards, absorbing moisture inwards towards the drywall instead of through the stucco exterior. The whole Elementary had to be moved to the Centennial High School campus on Sonoma Ranch Boulevard, requiring additional bus lines to help students reach a school on the opposite side of town. Follow our local education report by signing up today at Las Cruces Sun-News. In addition to the additional bus lines, the district spent over \$917,000 installing playground equipment, portable laptops security infrastructure at the Centennial to separate elementary school from high school. After weighing an \$8 million plan to strip the Columbia building of its studs and rebuild the building envelope, the school board voted instead to demolish it and build a new school building in February, following a recommendation from then-Superintendent Greg Ewing. It is estimated that the design and construction takes 24 months at a cost of 30 million dollars. The district had hoped that the Public School Capital Outlay Council would provide up to 64% of the cost for the new construction. Instead, at its October 18 meeting, the PSCOC requested a nine-month study of elementary school specifications, after which the district may apply for an off-cycle award for further studies regarding the possible construction of a new school. Prior to the meeting, the New Mexico Public School Facilities Authority had recommended that the district proceed with planning and design, but for a smaller structure than that proposed by the district, and had completed a study to assess the necessary capacity. The district had proposed a school with an expected enrollment of 600. PSCOC has allocated \$42,750 in state funding for the study. Meanwhile, the Columbia building is empty on one side of the city, and about 340 students along with staff hold the school on a high school campus 16 km away. The council's controversial decision to build a new building from scratch on the same property was a feature of complaints that led to petitions for the recall of three school board members. The citizens' group calling for a recall election for board members Terrie Dallman, Maria Flores and Ray Jaramillo says Columbia's decision was made in violation of New Mexico's Open Meetings Act. The petitions have been challenged before the State Supreme Court. The LCPS Board of Education will discuss the implications of the PSCOC's decision at a special meeting Tuesday at 3:30.m p.m., in the district's administrative building at 505 S. Main St. The meeting is open to the public. In an October 22 letter to columbian and centennial families, Interim Superintendent Karen Trujillo wrote: Columbia Elementary will remain part of the Centennial campus for about another three years as originally planned... We will continue to work to secure the corresponding state funds needed to resolve the situation of Columbia's buildings. Over the next year we will work to conduct the appropriate studies as required and return to PSCOC to review the results of the study and consider the next steps. Trujillo began the duty as interim superintendent in September, after Ewing's resignation. The PSCOC also announced a \$764,008 prize in corresponding funds to replace the roof of Valley View Elementary School on California Avenue.Algernon D'Amassa can be reached at 575-541-5451, adamassa@lcsun-news.com or @AlgernonWrites @AlgernonWrites Twitter.
