Because learning to play the piano on Piano per Dummies is hard enough, in my opinion. The theory is very well explained, but the songs splash from zero to a thousand in a while and leaf through the last pages come the doubt that the book will be an ancient piece when we can perform such pieces. It's worth wandering through the various sections out of pure curiosity, looking in the index for a brief explanation, but relying on much more to continue with more exercise and Un testo narrativo specialistico. (As was my situation) Myself I found the book very well, so much so my theory is now well before practice. It was easy to read, easy to find specific topics, and it covered my needs plus much more. The attached CD is very good, I think a DVD with a few fingers on the keyboard will be a big improvement. It will be a textbook for me to consult for some time yet... more really nice when you're just starting out and want to know a little more than just playing tunes. Also fun the I watched Supergirl with my daughter at the time and the writer writing the theme music as the show. A nice connection between art, talent and careers. So, I technically didn't read the whole book, but I studied it for a long while. It really helped me read music, and understood the basics of the piano. And it had some cute little songs in it too! Estupendo libro para quienes estamos iniciando and la práctica del piano. Or, tens muchos consejos prácticos y explicit amenas que's combinan con piezas musica les que no son aburridas. Je n'ai pas fini de le lire mais ce livre est accompagné de 2 CD : 1 throw l'audio avec les mélodies proposées et l'autre avec un logiciel interactif. Alarming ce dernier c'est une mauvaise surprise car on an attendance à un logiciel qui couvre les leçons de tous le livre. Or, it's agit plus ici d'une version démo qui ne couvre que le début du livre. Il y a de quoi faire mais on ne va fits jusqu'au bout et on fini à devoir's débrouiller tout seul avec le bouquin old payer throwing la version complète. I bet you're all like WHA????? but after going through this book, you're going to knot what I'm talking about...-)this book is very easy to understand, (hense for DUMMIES) and I think anyone should give piano a try... I DID AND I LOVE DAARoor :-D :-D I knot pretty enough..... you can too!! DON'T HESITATE!! GRAB THIS BOOK!! A very interesting and useful book for me. I should have read it before I bought my piano, but starting it after owning a piano made the first 50 pages unbearable. I wanted to play, so I was impatient to get to the role with the notes. I like the way things are explained, shown and played (the CD). Very useful, informative and reader/player-friendly. I'm convinced people like myself aren't meant to read sheet music. I thought this book would help, but still no. Guess I will continue to play chords and pay extra attention to sounds and memorization. This book is hilarious as it is not supposed to be. Plus the lessons turn out to be well structured. That's what says. It's a silly book. Muy basicoLa mitad del libro vale la pena, aunque puddings encontrar mar buscando and youtube... necessitate hacerle una buena actualisacion... aes libro es mas para referencias referencias
