## PlastiKote bed liner spray can

Aerosol Truck Bed Liner coating plastic is designed to keep new trigger hands clean and provide maximum protection of a truck bed at a fraction of the cost of doing professional work. The new trigger mechanism of PlastiKote aerosol truck bearing lining is unique in the automotive industry and makes the application easier and cleaner for the user who wants to make it himself but also wants a professional look, said Lance S. Bunch, category manager for automotive aftermarkets and industrial distribution MRO Valspar Corporation. We've also designed new packaging that makes an immediate impact so that our PlastiKote Truck Bed Liner is easier for customers to find on the shelf. These new enhancements once again show why the new PlastiKote is the choice of those who want the best. The features and benefits of the new PlastiKote Truck Bed Liner Aerosol (264) include: •Permanent ties to the surface, resistant to abrasion and has textured, non-slip rubber granules to help prevent slippage and fall•Flexible, textured surface minimizes cargo slippage, is fade resistant and resistant to extreme hot or cold temperatures•Provides a hard, non-slip surface with no warp or cracks and is gasoline resistant•Helps prevent rusting in your truck bed lining We also offer our Truck Bed Lining Kit we don't want to use an aerosol spray but again For customers who also want the 'Perfect Finish' from PlastiKote for their truck, Bunch continued. Our Truck Bed Liner gallons full size pick-up will cover fast dry coating. Whether you spray, brush or roll on it, the new PlastiKote bed liner is the answer if you want your truck to look new. PlastiKote Bed Liner Kit (265GK) Truck Bed Liner paint (265G), roll frame and cover, friction pad, roll tray and brush contain a gallon.
