Samsung rugby 4 manual pdf

Device Category: MobileDevice Group: Mobile Model: Rugby 4 (AT&T; T) Flip Phone SM-B780 Reply 0How to set up my voicemail, my phone is new. Answering 0T I do not get tutorials with my new phone - the sales link has no interest in showing me anything other than to turn it on, reply on and off. As for the cost of the phone, I expect more from AT&T; T My question is: how much does the manual cost and if I'm down lending it I'll be able to print it – I'm a premium and need help with what you can consider simple things. Thank you for your interest. Answer 0When I bought this new phone, the sales link was completely unsymed to the meanything show, other than how to answer, on and off. I'm disappointed in AT&T; T T. For the money I've spent over the years, I really expect more. I see that I can buy the manual, how much is going to cost and after down lend it, can I print it? I'm a senior and need support with what you can consider simple things. Thank you for your help. Mearl replied 0have rugby b780a. picture of a w clock / arrow above it comes on the screen. What is it and how do I get rid of it Answer 0How do I get a big ringtone or download ringtones on this phone Answer 0How to add more bell sounds answer 0How do you use speed dial for #10? I can quickly dial all my people listed for 1-9, but 10 won't work when I save a contact in #10 and then press 10 and talk... Answer 0 how do you turn off amber alerts? Answer 0how to install contacts on rugby 4 Reply 0 My husband has a B780A mobile phone. We ordered a new battery as his phone kept dying. He's about six years old. The new battery fits but now the phone is making him update the date and time. We went online to see how to do it. But when he scrolls to update the morning/afternoon selection, it won't save his changes. So time would be wrong if we couldn't get that to work. Can you tell us how to do it? Thank you. Top Critics Reviews All reviews, PJ3.0 out of 5 stars Only okReviewed in the United States on August 5, 2016 Any year 2016Ped this gift as a gift. He liked it so when I had to get a new phone. I got SS Rugby IV. We all really want to be mobile phones that act like phones without SMART business. Both the III and IV are sturdy, with long-lasting batteries on standby. The sound quality is good but I wish I could make it even bigger. I always use in speakers on help mode. I like small size because it fits in my pocket. What this phone lacks is simplicity and features. ability. don't find it easy to use. For me, any electronic device that requires reading the manual has been a negative. My old phone was a Sony Ericsson. I really love that phone. It has all the features I find useful and it is extremely easy to use without having to refer to the manual. I had to give up that phone because it was no longer supported by my service provider but I missed those features. Rugby can be a lot better and it's hard to figure out why they make it so complicated. I've read a lot of negative reviews about battery life and I didn't see it as true but I hardly used my mobile phone and rated the battery just on standby. Other negative reviews compared to III with IV say that III or even II is better. Honestly, I can't see any difference between 3 & 4. The picture is nice and clear and the bell sound is loud enough but they are very boring. My Sony ringers were much more interesting. All in all, I don't think I'd get a rugby if this one was dead. I want to be able to understand immediately how a phone works without mentioning a manual.
