Uh course listing

January 02, 2021 UH Publications - Academic Catalogs and Student Manual UH Publications portal consists of a tool package for current and prospecting students, staff and faculty members. To select a catalog or student manual, please use the drop-down menu at the top right of the browser window. Catalogs not included in the menu (before 2012-2013): Visit the Archives of Publications link published in the left menu Add Diploma Planner (Degree Programs Only) 'My Portfolio' Social Media Print Friendly Format Help Plan! The Degree Planner icon is at the top of each program and provides a print-friendly version of degree requirements in the form of a checklist. Please review these requirements with your Academic Advisor, as yours may be different from the general requirements listed. Hide! Create a personal portfolio by clicking the My Portfolio link at the bottom of the left navigation pane. After you create an account, you can add courses to your favorites by selecting the asterisk icon at the top right of the page. Talk about it! Share catalog information on Facebook and Twitter. Print! Selecting this icon creates a pop-up page formatted to print correctly from the draft. Use! Contains more information about how to use the catalog. On top | Print Friendly Page (opens a new window) Active and upcoming terms at the University of Hawaii at Manoa : Class Schedule (via myUH) allows you to search for available classes for each semester and get details. Classes or new classes sections can be added, stopped, or modified after the Class Schedule is first available for a specific period. It is made from sections that provide additional information about new classes. If you're planning your classroom program for next semester, you may need to learn more about Basic Curriculum courses and requirements. If a section is cut or changed before receiving your meeting time, room or instructions, tuition fee, and fee bill, the information will be available in the Class Schedule as long as the change is made. For more useful information, see our Registration USAs. Search the Class Schedule Note: Cookies must be enabled in your browser to use course entry. NEW: Search uh lesson syllabi and curricula vitaeclick link above for more information. Click here for the University of Houston Undergraduate Catalog. (Disclaimer: Note that some information on this page may not be up-to-date due to course scheduling changes. For the most up-to-date/up-to-date information, please view the UH Class Schedule page or your Class program in myUH.) 2019-2020 Academic Calendar (PDF) (NEW) University of Houston Textbook Admission entry: Please use this link to create your account and send your textbook information to the course. This entry is especially important for the faculty's own textbook information (PDF Instructions-screenshots). Chapter Book Ordering Resource (This form should only be used for the School of Mathematics, which cannot and/cannot access the University of Houston's Textbook adoption website) *NEW: UH plans to offer classrooms in the following three teaching modes this fall: Hyflex: courses have a safe number of students, along with lessons that will allow face-to-face in a socially distancing classroom and allow additional students to attend the classroom remotely. Courses are also recorded by students for later view online, and additional course materials that are always accessible are posted online. These courses are displayed in the sym program with Meeting Time. Synchronous Online: courses have NO Face-to-Face classes but meet on a specific day and time in a virtual classroom. All course materials are available online and virtual lessons can be recorded to give students additional flexibility to see later. These courses are displayed online with Meeting Time in the class program. Asynchronous Online: courses NO Face-to-face classes or virtual meeting times. All course materials are always available online. These courses are displayed online with NO Meeting Time in the program. This schedule is subject to changes. Please contact the Course Instructor for approval (*updated 11/11/20*). (Archived Course lists) (These courses will apply correctly to a degree in Mathematics) Course Class # Course Name Course Day and Time Rm # Instructor Mathematics 2131 20904 Linear Algebra Laboratories w/MATLAB Online Online J.
