## Undergraduate research symposium uo

Thursday, May 31, 2020, at 9 a.m. to 8 p.m., the Erb Memorial Union (EMU), 1395 Ballerum University Street, Eugene, or 97,403, will hold the 10th annual undergraduate research meeting on Thursday, May 21, 2020. The University of Oregon broadly defines undergraduate research and includes students from all disciplines. Undergraduate students across campus are engaged in core projects, coaching research, creative work, entrepreneurship presentations, and community-based projects. UO students have big questions and are working on finding and making answers. Whether you are providing, attending, coaching, or supporting your peers, we look forward to seeing you at this meeting. Last year more than 75 disciplines, 21 minors, and eight colleges were represented by students from every undergraduate class at the Erb Memorial Union and Science Library Visualization Laboratory for a day of oral presentations and posters, performance art, academic residential community presentations and quick chat telling stories behind data students being collected and working with. This year it will welcome new providers and coaches for the largest symposium. The Undergraduate Research Summit is an annual showcase for undergraduate students of all disciplines to present their work to the wider community. Hundreds of student researchers, including researchers from Garnett and the Gold Scholar Association, honorees in the Big Program, and the Undergraduate Research Opportunity Program (UROP), present their work as posters and creative presentations at the FSU Oglesby Union ballrooms. Light freshness and interactive activities are provided. Virtual 2020 undergraduate zoom sessions from April 6 at 3:35 pm to 9 April at 7:45 pm are invited to join us during the week of April 6 as current undergraduate researchers present their posters virtually for Spring Research Week 2020! Through our Facebook event page we will share time for each presentation session, zoom event link and public area/theme presentation so you can watch and support your friends and peers. To make students the most experienced during the virtual program, we encourage you to invite your peers, professors and family to hop on the zoom event! Many of our providers participate in the Undergraduate Research Opportunities Program (UROP), Garnett and the Gold Researcher Association, honors in the field, and students willing to experience the presentation. We will be sharing nutrition creativity projects performed as videos shared in each session. For more information about fall events, please contact CRE, cre@fsu.edu. Watch a video about the spring 2016 undergraduate research here. Watch a video about THE SPRING 2015 BA Research here. Every year in May, the UO Undergraduate Research Commission celebrates the significant assistance our undergraduates make to research and other creative work in a wide range of disciplines. Last year, the camposium hosted 382 graduates involved in original research, creative work, and community-based projects from more than 71 disciplines, 13 minors, and eight colleges at the Erb Memorial Union for a day of oral presentations and posters, creative work sessions, academic residential community presentations and templates providing new data stories! The association aspires to engage undergraduates in the University of Oregon's research mission by supporting the creation and dissemination of knowledge while inspiring younger undergraduates to pursue research opportunities and eliminate barriers to interdisciplinary education and discourse. It enables the undergraduate community to share their ideas, discoveries and artistic expression with the campus and the local community. The meeting invites students to choose their preferred presentation style to best accommodate their projects. The conference, includes poster sessions, oral presentations, and exhibitions. About Symposium FAQ present in the archives of the Symposium program, the signing event of undergraduate research week, the Undergraduate Research Meeting (URS) has been held on the University of Illinois campus (U of I) since 2008. The number of undergraduate students participating has grown well from several hundred in its inaugural year to more than 800 students (as of spring 2019). Throughout the day, students presentations (including creative performances), the breadth and scope of which not only reflects a wide range of academic disciplines at the University of Illinois, but also speaks to our undergraduate calibre. Our students are innovative and engaged, eager to learn from their counselors also demonstrate an ongoing institutional commitment to supporting and expanding research opportunities in U from me and beyond. 2021 Virtual Bachelor Research Date: Presenting student on display from April 26 - April 30 Location: Online via a virtual platform Application Deadline: March 19, 2021 at 11:59 Am Why now? Gain valuable presentation experience. Get feedback that can Your research. Help and learn about recent improvements in your field. Strengthen your resume or vitae curriculum. Presenting in URS satisfies one of the requirements: Name(s), NetID, Email, UIN, Gender, Race/Ethnicity, College, Major, Year at School for Any Provider.\*Please note, graduate students, faculty, and staff should not be included as providers in the program. We only allow undergraduate students to be providers at URS. Name and contact information for the provider's research instructor. The title of oral presentation, poster, or performance. This title can be appealed after submission. Abstract presentation (not to more than 200 words). The abstract will appear online and can be revised by providers by early April. The presentation category that best applies to the subject of your research (such as artistic expressions and human inquiry, food and animal plants, science and mathematics, health and wellness). Eligibility and Application: All current undergraduate students are eligible to attend URS. To submit an application, use the link present at the meeting on the left. An 11-year dreams and discovery undergraduate research meeting celebrates 11 years of support for students offering their research and creative work, thereby helping them to achieve their academic and career goals. Research is for students of any discipline! Take the next step and sign up to attend the 2021 meeting. Here are some of the numbers from the first 10 years of the association: Undergraduate participation of faculty instructors supporting students of different disciplines represents participation in the Undergraduate Empowerment Research Association to share their ideas, discoveries, and artwork with campus and the local community. The event traditionally takes place at an EMU-style academic conference and includes a variety of academic research that allows you to present your work through posters, or in one run. Major's comparative literature and Malissa Robles' minor dance, her dance performed by dancers, translated into poetry snezes for this temposium. Learn more about how easy it is to submit your research. The next steps for the company are sometimes all you need are essentials. Here are the important dates and deadlines you need to know for the 11th year of symposium. If you are looking for more information, please refer to our detailed timeline. The presenter's registration was approved by the presenter and abstracts due to 11:59 p.m. .m. Symposium livestream at 10 a.m. on YouTube One of last year researchers is back this year, not only with her research, but to help others succeed. Read the story of Adi Mat Wilson traveling his student research fueling his post-graduate career What's next for the mat benefits of SAIL Partners' undergraduate research with Symposium welcomes high school students from the Summer Academy to inspire the Learning (SAIL) program to learn about research opportunities in higher education. Read more about UO Sails undergraduate Symposium Research celebrating our remarkable undergraduate donations to research and other creative work in a wide range of disciplines. The meeting, co-chaired by Kevin Hatfield and Nadia Singh, aspires to engage undergraduates in the University of Oregon's research mission by supporting the creation and dissemination of knowledge, while inspiring younger undergraduates to seek research opportunities and eliminate barriers to interdisciplinary education and discourse. It enables the undergraduate community to share their ideas, discoveries and artistic expression with the campus and the local community. The meeting invites students to choose their preferred presentation style to best accommodate their projects. We hosted a combined event in 2021, combining in person and presenting opportunities remotely. Pivot to a virtual hemposium format in spring 2020 provided unprecedented access and interaction for educators, families and peers, as well as faculty, staff, alumni, donors, and community members. The shift also culminated in a digital exhibition of undergraduate research on our YouTube channel which now hosts 162 videos featuring more than 400 individual offerings. The site has enjoyed over 9,500 views since 21 May and we have enjoyed more than 1,000 visitors a day of the event. The Undergraduate Research Association is sponsored by the Undergraduate Education and Student Success Department, the Undergraduate Research and Nomination Center (CURE), the Vice President's Office for Research and Innovation, University Housing, Robert D. Clark College of Honors, UO Libraries, trio McNair's scholars program, and the student life department. Questions? Please email ugresearch@uoregon.edu. For information from peers about the investigation and how to get involved, please email ASURE asure@uoregon.edu.
