## Star trek online leveling guide 2018

Massively multiplayer online role-playing Star Trek OnlineCover art for Star Trek OnlineDeveloper(s)Cryptic StudiosPublisher(s)Atari (2010–2011) Perfect World Entertainment (2011- )SeriesStar TrekPlatform(s)Microsoft Windows PlayStation 4 Xbox One[1]ReleaseMicrosoft WindowsNA: February 2, 2010[2]EU: February 5, 2010. February 11, 2010[2]AU: February 11, 2010[2]OS XWWW: 11. 2016EU: September 7, 2016Genre(s)Massively multiplayer online role-playing, third-person shooter, space flight simulatorMode(s)Multiplayer Star Trek Online is a massively multiplayer online role-playing game (MMORPG) developed by Cryptic Studios based on the Star Trek franchise. The game is set in the 25th century, 30 years after the events of Star Trek: Nemesis. [4] Star Trek Online is the first massively multiplayer online RPG in the Star Trek franchise and was released for Microsoft Windows in February 2010. [5] Upon launch, the game required a game purchase and a recurring monthly fee. In January 2012 it was relaunched with a level of free access available. [6] After a public beta testing period, a version of the game was released for OS X in March 2014. Due to technical issues with the port, support for OS X was terminated in February 2016. [7] It was later released on PlayStation 4 and Xbox One in September 2016. [8] Setting Star Trek Online is set thirty years after the events of Star Trek: Nemesis. The alliance between the United Federation of Planets and the Klingon Empire has collapsed, and they are again at war. Romulan Star Empire continues to deal with the fallout from the loss of their home world twenty-two years earlier (as shown in J. J. Abrams' Star Trek film), while the Dominion rebuilds its forces. The borgkollektivet has re-emerged as a major threat. In later expansions vaadwaar, ikonians, Na'Kuhl, Krenim, Terran Empire, Voth, Arter 8472 (called The Undine in the game), Tzenkethi and Hur'q are also introduced as opponents. Gameplay In Star Trek Online serves each player as the captain of their own ship. [9] Players are able to play as a starship, control the ship's engineering, tactical and science systems with keyboard/mouse, or use a console on the screen. Players can also beam down and move around as a player character in various settings with access to weapons and specific support and combat skills associated with their own character classes. [10] The two combat systems are intertwined throughout the match: away team missions have fast-paced run-and-gun combat, while space combat underscores the long-term tactical aspect of battle between capital ships. Both are offered in concert with Star Trek history and emphasize ship positioning to effectively utilize shields during space battle, as well as the player's away team positioning in consideration of flanking injury find various weaknesses to exploit during ground combat. [11] Other aspects of the game include crafting, which in its current form involves using duty officers (junior crew members) to make objects, depending on the level of the school (category- such as science, beams, etc.) selected. To raise the level of school being examined, it is necessary to carry out a research project using a making material. Unlike in some other MOs, crafting is a set-and-forget procedure. The player will set up the project, click a button and after a certain time the task will be completed, instead of spending time actually performing crafting. Duty officers can also be sent on missions that also follow the set and forget methodology, and which are not available during the time the tasks are in progress. Signs at level 52 and higher can send any ship they have, or have had, on admiralty missions, similar to duty officer missions - but these do not use duty officers to carry them out. Again, the mission is selected and a certain amount of specified time goes until the player is told that it is completed, then they will be informed if it was successful. On September 1, 2011, Cryptic Studios announced that Star Trek Online would switch to free games, but without full access to all the items. [12] Later, it was announced that free-to-play would start on Tuesday, January 17, 2017. [14] Development Cryptic Studios officially announced the development of Star Trek Online on July 28, 2008, when a countdown timer on Cryptic's website reached zero and the new official site was launched. [15] A letter was sent out from Jack Emmert, the game's online producer, describing some aspects of Cryptic Approach. [16] Console versions were announced several months before release, with no specified console platform, but Cryptic announced that all console versions of their games are indefinitely due to difficulties on the business side of things. [17] largely referring to the fees assessed by Microsoft for their Xbox Gold premium online gaming service and the difficulty of asking a player to pay both that and the cryptic subscription fee to play a single game. [18] Support for the console for both Microsoft Xbox One and Sony PlayStation 4 was made available in September 2016. [8] The first release was in North American regions, but will be rolled out to several regions of the Americas and Europe. [19] Star Trek Online's closed beta test officially began when it was announced on 22 May 2015, offering guaranteed beta access to users who purchased 6-month and lifetime subscriptions to Champions Online. However, the offer did not explicitly say how early in the beta process access would be granted. [21] Some pre-order included access to the open beta running from 12 to 26 January 2010. Expansion Pack: Legacy of Romulus Legacy of Romulus is Star Trek Online's first expansion pack, announced on 21 May 2015, a third playable faction, the Romulan Republic, was added, with the choice of Romulans or remans (today) as player characters, as they battle a mysterious new enemy and try to discover the secrets of the destruction of Romulus two previous decades. Denise Crosby, who reprised her role as Tasha Yar during SA's third anniversary,[24] reprised her role as Tasha's daughter Sela, the Romulan Empress. [22] Also featured is a complete leveling experience from level 1 to 50 (current level cap) for the Romulans and for the Klingons, a Tholian reputation faction, a customizable UI, and an overhauled properties system. [22] Legacy of Romulus was released on 21. [22] Expansion Pack: Delta Rising Delta Rising is Star Trek Online's second expansion, announced at the Official Star Trek Convention in Las Vegas on December 2, 2013. [27] The expansion is set in the Delta Quadrant, the main setting for Star Trek: Voyager. [28] Tim Russ reprised his role as Admiral Tuvok (who appeared in two episodes in season 9), and was joined by Garrett Wang as Captain Harry Kim of the USS Rhode Island (established in the Voyager series finale Endgame), Jeri Ryan as Seven of Nine, Robert Picardo as a Doctor and Ethan Phillips as Neelix. [29] Principal designer Al Rivera said more Voyager actors would appear in Delta Rising. [26] The level limit was raised from 50 to 60, adding two new ranks for each faction: Admiral and Fleet Admiral of the Federation and the Romulan Republic, and General and Dahar Master for Klingons. Several Delta Quadrant races that appeared in Voyager will also be included in the new content, as well as a new level of ship for higher levels, and a Delta Reputation tree for players to move on. [28] Delta Rising was released on 14 September 2015. The expansion allows you to create Starfleet player characters from the original series that become involved in an ongoing Temporal Cold War (a story that was introduced in the Enterprise and brought into the STO with the Future Proof missions in season 11) with the Na'kuhl species. Matt Winston reprised his role as Daniels, the temporal agent who fought alongside captain Jonathan Archer to stop Na'kuhl in several episodes of the Enterprise. He was also joined by Walter Koenig, reprise his role as Pavel Chekov, and Doohan as Montgomery Scott, fills in for his late father, James Doohan. [31] The expansion also crosses with the alternate timeline from the reboot series begun in 2009 by J. J. Abrams; Joseph Gatt reprises his role as cyborg science officer 0718, who appeared in Star Trek Into Darkness. [32] Agents from Yesterday was released on 6 September 2015. The expansion opens up the Gamma Quadrant, accessible by the Bajoran wormhole, and also adds dominion as a playable faction, with the ability to create Jem'Hadar characters. The Cardassians can also be unlocked for Starfleet and Klingon Defense Force factions in the game store. Several DS9 actors reprise their roles in the expansion, including René Auberjonois (Odo), Nana Visitor (Kira Nerys), Alexander Siddig (Dr. Julian Bashir), Armin Shimerman (Quark), Max Grodénchik (Rom), Chase Masterson (Leeta), Aron Eisenberg (Nog), Andrew Robinson (Elim Garak), J. G. Hertzler (Martok), Jeffrey Combs (Weyoun and Brunt), Salome Jens (the female change) and Bumper Robinson (Dukan'Rex, Jem'Hadar youth who appeared in DS9's third season episode The Abandoned). Victory is Life was released on 5. [34] Release and operation Promotions Cryptic Studios collaborated with several retailers for the distribution of pre-order copies. Each retailer had a version with unique and exclusive content, such as a Borg Bridge Officer (Amazon), a classic Constitution-class starship (Gamestop), Sniper Rifle (Target), Chromodynamic Armor (Steam), 500 bonus skill points (Walmart), Neodymium deflector dish (SyFy), or a Tribble/Targ pet (Best Buy). All versions of the game came with access to The Open Beta and Head Start launch date. [35] In addition, the code for a wrath of Khan Admiral's uniform is included in the DVD release of The Best of Star Trek: The Next Generation Volume 2 and the Blu-ray release of Star Trek: The Original Series – Season 3. [36] Ownership Star Trek Online was originally owned by Cryptic Studios and released by Atari Interactive, along with the sister title Champions Online. On May 30, 2011, Atari indicated that it no longer wanted to pursue MMORPG games, and that it planned to sell Cryptic Studios off.[37] Later that month, Perfect World Entertainment acquired Cryptic Studios for \$50.3 million and continued its operations. [38] Reception ResepsjonAggregate scoresAggregatorScoreMetacritic66/100[39]Review scorePublicationScoreGameSpot5.5/10[40]IGN6.8/10[41] Star Trek Online has received mixed reviews, and received a 66 on Metacritic. [39] GameSpot praised the game's space game as entertaining, but found the other aspects of the game to be boring and shallow. [40] MMOify's reviewer the game positively, but criticized many aspects of gameplay, including poor voice acting and repetitive missions. [42] An IGN reviewer described the gaming experience as a feeling of being two games that didn't mesh together well, and although visually it was quite a lovely game, much of the game found it repetitive in nature. [41] In 2016, Tom's Guide ranked Star Trek Online as one of the top 10 Star Trek games. [43] In 2017, PC Gamer ranked Star Trek: Online among the best Star Trek games, adding that it includes original voice-watching by actors from the live-action TV series.
