## Walkfit platinum orthotics

Compared to \$300-\$600 for custom orthopectics Realign your feet, realign your life. The beauty of the Orthopaedic Walkfit is that it aligns the foot and ankle. Then everything re-aligns with stability and comfort. The benefits of Walkfit Orthotics aligns back and shoulders Relieves back pain Balance hips to facilitate movement Reduces stress in knee joints Cradles feet to improve stability Foot cups with lasting support to relieve discomfort! This reduces painful cream, pasta, corn and calluses. Pillow your heel for maximum comfort! A cushioning gel pad on the heel provides additional shock absorption and comfort. No other orthopectic offers you this personalized comfort feature! 3 sets of customizable arc inserts allow you to decide that it feels perfect for you. As Walkfit Orthotics Work!t it all starts with the bioblock heel cup. It supports both sides and the back of the foot to help block the foot and keep the heel from rolling. Distribute your weight evenly through the foot to help prevent collapse, pressure points, stress and rubbing. Relieve impact by evenly distributing the strength of each step! Push-ups and pillows to help absorb the destructive shockwaves from traveling through your entire body every time your foot hits the ground! Pillow your heel for maximum comfort! A cushioning gel pad on the heel provides additional shock absorption and comfort. No other orthopectic offers you this personalized comfort feature! 3 sets of customizable arc inserts allow you to decide that it feels perfect for you. Walkfit Platinum Orthotics There is no other orthopaedic that offers you this personalized comfort feature! 3 sets of customizable arc inserts allow you to decide that it feels perfect for you. Patented arc inserts are customizable so you can select low, medium, or high to get perfect support. Nor do they feel comfortable immediately if people are not used to orthopaedics. You need to get used to them, so we recommend starting with only a couple of hours a day at the low level, and then increasing the time. Once adjusted, it can be passed to higher arch levels if desired. The Orthotic Walkfits are made of a virtually indestructible copolymer resin, are washable, and come with a lifetime replacement warranty. Align your body to relieve pain Independent tests validate pain relief \* In an independent study conducted by doctors on individuals using Walkfit, 99% reported pain relief in the foot, 98% reported pain relief and/or hip, and 97% reported relief from knee and/or leg pain. In an independent study conducted by doctors, more than 90% of people with pain in their feet, knees, hips or back resulting from poorly aligned feet or pronation experienced decreased pain when using Walkfit. Percentage of people who experienced relief \* When pain is due to poor foot alignment, © 2008 Walkfit Platinum, LLC Reduce pain and inflammation in joints. BeFlexible is the first Natural anti-inflammatory drug-free joint nutrition with a unique combination of 2 patented and clinically proven ingredients that can't be reached anywhere else. Decades in the making, this innovative natural supplement combines these clinically effective ingredients into a powerful capsule, and is manufactured to the highest standards of purity, power and quality. Bio-Boswellia is a powerful plant-based anti-inflammatory. It targets and stops destructive enzymes attacking joints to reduce PAIN due to inflammation quickly, without the harmful side effects of over-the-prescribed drugs.\* Phyto-Boron is a bio-compatible form of a miracle mineral that provides natural joint nutrition. It absorbs quickly to promote a healthy cartilage to support joint flexibility, comfort and function.\* \*When pain is due to poor foot alignment. © 2008 WalkFit Platinum, LLC I walk with my wife a lot, but I have trouble keeping up with her and I try to play catch up all the time. It doesn't always work. Now it does. The pain has gone to the knee. I'm losing weight. I don't see myself walking without these things. One day, I had pain in my feet, pain in my knees. The next day, I had no pain at all! And the only difference was putting them in my shoes. I found the solution to my pain problems and I will continue to use them. God bless your shoe inserts. I saw an infomercial about a year or two ago and thought I'd try it. Here I am all this time later and I will not wear shoes without it. It's affordable, which is great b/c I don't have hundreds to pay for custom orthopectics, and it's a great help and cheap store-bought inserts can't even be compared. I don't know how I've ever lived without them. Please don't stop. I just bought 4 more pairs in case you do it though! (but please don't lol) WalkFit® Orthopedic Platinum will improve your comfort when standing, walking or running. However, before wearing them for the first time, it is important to read the following instructions. It could take up to 2-3 weeks to fit your WalkFit® Orthopedic Platinum. If you decide to start at LOW inserts or MED, after a few weeks, you may want to try MED or ALT to find your ideal fit. Remember, if after a few days the new insertions are not comfortable, go back to MED or LOW for convenience. The important thing is to choose the level that feels best for you. Avoid tight-fitting ShoesWalkFit® platinum orthopaedic will fit comfortably into most shoes, with the exception of tight shoes. If you experience this difficulty, try your orthopectics with a pair of tighter shoes. Look ahead to New Foot ComfortOnce your feet have been adjusted to the WalkFit® Platinum you will experience a noticeable increase in foot support and comfort. You'll barely know you're wearing them... If you're like most people, you'll always want them in your shoes. Shoes. you may even want to order a second pair for added convenience – at the same low TV price – using the closed this order form. We know you'll love your WalkFit® Platinum Orthotics. Thank you for your purchase. Warning for diabetics or people with circulation problems!s you are diabetic, suffer from chronic foot pain, persistent joint problems, have numbness in the feet or circulation problems, consult with your doctor before carrying WalkFit® Platinum Orthopaedics. Your doctor's approval is of great importance. If you suffer from one of the above conditions and a doctor's approval cannot be obtained, please return your WalkFit® Platinum Orthotics for a refund. Remove extra shoe fillingSome shoes and sneakers come with built-in bow supports and additional padding. WalkFit® Orthopectic Platinum replace these built-in arc supports. To receive the right result from WalkFit® Platinum Orthotics, remove built-in supports and all additional media. Leaving bow supports and padding can cause significant discomfort in wearing these shoes. WalkFit® Orthopaedic Platinum come with three inserts: LOW, MED and HIGH. The height of the inserts is written on the back of each. LOW inserts are already inserted for you. To switch to another pair of inserts, simply fold back the top of your orthopectics and lift the inserts. We place the new inserts in position and press everywhere to make sure they are safely in place. Try each level of insertions to see which one feels most comfortable initially. If MED or HIGH looks more comfortable, choose MED or HIGH. Use them for only an hour at FirstOrthotics works by changing the position of your feet. It may take some time before you feel comfortable wearing them all day. To begin with, take the orthopaedic 1 hour on the first day, 2 hours the second and so on, until you can wear them comfortably all day. If you feel discomfort, take them out of your shoes. Start wearing them the next day without increasing the time they take. Then keep increasing usage until comfortable. If you feel pain when using WalkFit® Orthopectic Platinum, discontinue use and consult with your doctor. If, within 30 days of receipt of WalkFit® Platinum Orthotics, you are not delighted with your results, simply return them for a full refund of your purchase price (less shipping and processing).
