The film stars Charles S. Dutton, Jeddhar Pinquet and Harley Richardson. Plot former LAPD detective Andre Figures is a private investigator who owns a dirty figure investigation down low. He was arrested six years ago and runs with Peaches, who has romantic feelings for him. Despite high-risk jobs, shame can't keep the company afloat and can force it to close. Five years ago, a team of figures and detectives went to Mexico to arrest drug king Ernesto Mendoza. While shame appeared to have shot and killed Mendoza, other detectives were the only survivors of shame and Soni Rosmiller. This left shame a dishonorable force. Rosmiller, who now works for the DEA, says Mendoza is still alive. He hires shame to find the only witness to testify against him... His ex-girlfriend Angela, who was caught in the middle of a love triangle with two men. Angela escaped from a witness protection program in New York and is in LA. Shame hesitates at first, but seeing it as an opportunity to arrest someone who took everything from him decides to take the case. Shame gets information about Lewis, a childhood friend of Shame's who is one of Mendoza's lieutenants, and when he went to the restaurant, Lewis warns Mendoza that shame is coming for him. Upon arriving home, shame is attacked by Mendoza's henchmen and warns him to come back to Mendoza, who is very much alive. With the help of Peaches and roommate Wayman, Shame traces Angela to a lavish hotel and calls her Sony. Shame explains that he originally went to Mexico for her. She told Shame she would testify against Mendoza, but Mendoza had to find his location and flee. Shamefully, they learn that Rosmiller is working in Mendoza, and the two barely escape Mendoza's ere. Shame drops Angela from the peach. Shame cleans himself up, then kidnaps Lewis and takes him to an abandoned building. When Lewis refuses to reveal Mendoza's shameful whereabouts, shame stumbles upon a meeting of white supremacists. As the supremacists chase him, he becomes ashamed and rides his boss's position. But shame leaves him at mercy. At the club, Mendoza exchanges words and then goes into a Mexican exchange with Mendoza and goes on a hostage date. When Wayman attempts to draw the attention of shame, Mendoza escapes with distraction. Shame goes to Peach to find that Angela is gone (she and Peaches have previously got into an argument), and Captain Nunez awaits him. He is placed in custody where Nunez protects Peaches and departs to find Angela. Shame meets Angela in a storage locker and discovers the real reason Mendoza wanted to die: She stole \$20 million in money. At the motel, Shame receives a call from Mendoza informing him that he has a peach. Angela and exchange her for his money. The two agree to meet at a Mendoza-owned mall. Angela attempts to persuade her to leave with her, but he falls in love with Peaches, refuses and heads to the mall. Before the exchange, Sony admits he killed another detective because he would not bribe Mendoza without shame. He survived shame for the accusations. Peaches and Angela are placed on an escalator, and Mendoza learns that Angela is a mannequin. Shooting begins after hiding the gun on the escalator peach. Shame kills mercenaries hired by Sony, Lewis is attacked by a dog who was trying to kill Shame, Sony is killed by Angela. Mendoza captures peaches and confronts shame. After winning a fist fight, shame arrests Mendoza, who was killed by Angela. She attempts to kill the shame, but Peach grabs Angela by the head, grabs her waist and hits her on the ground, driving the cold out of the fist fight. Nunez threatens to arrest Shame, but Shame helped Nunez break down the drug owner, found a fleeing federal witness (Angela, who was handcuffed for her crimes) and recovered \$15 million in stolen drug money. Shame keeps about \$5 million in expenses, with Peaches getting the privilege of a romantic relationship with shame.
