Sport 20 sv cargo carrier instructions

You can get a replacement manul from Sears Parts at 800-366-7278 and refer to sport type 20-SV and model #300-72000. hope it Help! Sears migrates from the SportRack manufacturer to Thule. I had a lot of trouble finding the model number on the loadbox and was lost without it. Then I went to a local Sears store and found a helpful associate. They also migrate to a U BOLT type system instead of the system that came with the carrier several years Ago. It has 2 transport bolts, 2 metal plates, 2 metal/plastic wing nuts and quick release metal slide for EACH of the 4 attachment marks. If you want this part, try the following Information: SPORTRACK MODEL: 28-7216 Part # 92511. I bought the 'last one' at my local sears for \$20. **Visit Sportrack.com and go to Catalog, then Cargo, then Roof Boxes. Select Aero 1600 and then click the Installation Guide. It has the same installation set that came a few years with my Sport 20 SV Ago. Took me forever to find instructions, so I wanted to share! !** I just went through a lot of work to track down the U-bolt kit you need to attach the box to your roof (e.g., Yakima or Thule rack). Sportrack, a Canadian company, was bought out by Thule, so the phone number to Sportrack is answered by Thule - but after about a 45 minutes likes. They said their internal number for the U-bolt kit is #05593, and they sell it for \$25+ \$6+ tax (US dollars). They said the kit is actively distributed, so I may be able to find it through a local dealer. In that case, I must use the model number A117 *OR* 90490. They said they were also spreading through Sears, and with Sears the number is 7216. I just tried Sears' online catalog, as well as their parts catalog, and 7216 don't come up. But I have a Sears car downtown and they said they were carrying the 7216 but they is out of stock at the moment. Actually – I called Sears 800 number, they had to pass me to a 2nd level service, They said it don't appear to be distributed to their stores – that is, mail order only. Addendum: I called another Sears Auto Center and they called the 7216 in stock: Rood Stretch Mounting Universal Quick Release Kit Sears share number 028-07216 Sears model number 92511 \$19.99 Fits X-Cargo X-Treme 300.42016, X-Cargo Sport 20-SV 300.72000 X-Cargo Sport 20 300.72020 X-Load 300.7271 ?
