Westmoreland county pennsylvania genealogy

Westmoreland County was founded on February 26, 1773 and was the first county in the Pennsylvania colony west of the Allegheny Mountains. Westmoreland County originally included today's fayette, washington, greene counties and parts of Beaver, Allegheny, Indiana and Armstrong counties. The county town is Greensburg. THIS REGION IS AVAILABLE FOR ADMISSION! If you have a desire to help rewrite genealogical data and place it online for free use by all researchers, contact Nancy to become the host. Information for volunteers is available here. I don't live in this county. This means that there is currently no one available to help you answer your questions about the history of this county or to help you with your family's genealogy in this county. WE REGRET THAT WE ARE UNABLE TO DO PERSONAL RESEARCH FOR YOU.
