Ground efx swarm series mx100e metal detector manual pdf

You are the great hunter; you are fired by that pure and inflammatory desire to find everything that fits just in the list of precious metals. yes, you're on the right page, no doubt. Ground EFX Swarm Series Digital Metal Detector is the tool you need to get going. Imagine a device that only helps you find a piece of metal that you wouldn't find through the way. With all the dis positional properties at your disposal, you will find the hunting treasure more fulfilling. Treasure hunting is a hobby, something that takes you out of that thick cloud, nagging cockroaches, that dazzling fog after a boring service call, the metal detector will punctuate your fun with exciting and breathtaking fun anecdotes especially when you get that precious piece. Imagine this device that would bring resounding changes during turn around time; We got it. The design team has just mounted all the features that will enhance the treasure hunting missions. Here is what Sol EFX Swarm Series Digital Metal Detector is all about. More photo & price on Amazon.comThe Ground EFX offers you the type of discrimination you expect from a top metal detector. It comes with three elimination modes; Coin mode, jewelry mode and all metal modes. Adjust between these modes so you can get what you just want. Whether you want to choose coins, jewelry or any other metal, the metal detector can be customized to suit your needs. It makes no sense to dig for coins when you are interested in gold. The ways will tell you what kind of metal is hidden in the soil, so you can be sure what fortune you're about to get. Polycarbonate and fiberglass constructionYou have a durable metal detector if you invest in the Ground EFX Swarm series digital metal detector. The body is made of durable materials (glass fiber and polycarbonate poles) that ensure that the element lasts a long time. Make sure you don't have to replace the metal detector with a new one too soon after purchase. Moreover, the metal detector is made of lightweight materials that make it easy to carry it around in search of hunting your fortune. The ergonomic design tops the list of the best performance of this device. You have every reason to invest in it.10 The submersible coil has proven that many treasures are found in the water especially in places where we have a public beach. Therefore, if you live near these public beaches and the treasure hunt is your interest, you have every right reason to invest in the GROUND EFX metal detector. The 10 waterproof submersible search coil can help you treasures in the water without destroying your equipment. Other modern metal detectors can only be used in very shallow water, but it can be used in relatively deeper water surfaces. The coil is also foggy and weatherresistant and can withstand harsh climatic conditions. Depth and signal signal IndicatorsThis is the best feature that all treasure hunting fans love to see in any metal detector. These two features work together to help you determine how deep you will have to dig before you get your fortune. As if not enough, it also comes with a pinpoint mode that shows you the exact location of the metal element. You can estimate for how long you will dig and this helps you have a positive mind towards treasure hunting. Indicators of strength and depth will tell you when you are about to reach your luck. The metal detector comes with four different and unique audio tones that distinguish different types of metals. Whether it is a coin, a jewel, or gold that is buried in the ground, the device can clearly tell. This eliminates the uncertainty of digging for what you're not sure about. The headphone jack ensures that you can quickly hear and distinguish these tones. You'll connect your headphones and the audibility issue will be sorted out. Therefore, you can use this Ground EFX Swarm Series Digital Metal Detector in noisy comfortable environments without missing a single beep. Adjustable arm guardThere is nothing interesting than to own something that can be customized to meet your needs. With the arm adjustment function, you can shorten or extend the length of the arm to match the size of the hand. The arm guard also comes with a belt that makes transporting this equipment worryingly easy. The manufacturer of this metal detector understands that treasure hunting is for everyone. They designed it to suit the needs of both left-handed and right-handed. Most metal detectors are biased to right-handed, but it takes care of everyone. Ground EFX Swarm Series Digital Metal Detector – Video It offers great value for money. It is ideal for people of different ages. It can be used both on land and on wet soil.
