## Citizens watch eco drive manual

**IMPORTANT NOTICE** Please note that following the restrictions caused by the Covid19 pandemic, we have initiated the reopening of our Service Centres on a timely way, you will now be able to visit the to make a service request to include with your watch when returned to us. Please note that due to work practices and reduced levels of lead time repairs are expected longer than usual. The website of the section is also now fully operational and we will endeavour to ship all parts orders, where stocks are available, within 2-3 working days. We will announce any changes on this website and If you need more information, please email [service@citizenwatch.co.uk](mailto:service@citizenwatch.co.uk)To see the Setting Instructions for your particular People's watch, enter your Move Calibre Number on the field to the right. To find the Calibre Of Movement Numbers on the backbench of your watch, see the diagram below. You can also choose from video command options for extra help by setting your watch. Caliber E000&amp;E001&amp;E010&amp;E011&amp;E030&amp;E031 Caliber E100&amp;E101&amp;E106&amp;E110&amp;E111 Caliber H11A&amp;d; H110 &amp;; H111 &amp;; H119 How to set up your Citizen Eco-Drive radio-controlled watch: Here are some radio-controlled citizen watches that these commands apply. AT4000-02E AT4004-52E AT4008-51E AT4007-54E AT4117-56H AT4110-55E Video Instructions: Setting My Time And Watch Calendar set to the wrong city, how can I change it? Pull the crown out to the first click of the Rotate crown to choose the desired city by slowly twisting the crown. Once the right city is chosen, slowly push the crown back and the watch will resume with the time the cities choosen. Wrong time, how can I get a watch to update? Pull out the crown and press and hold the button closest to the position 4 0-3 seconds. Once you hear the tone, the clock is in manual reception mode, put the face on the edge of the window facing the south with a 6-hour position pointing out of the window. Leave for a few hours and the clock should receive a new signal. To manually reset the time, please see the full manual linked below. How do I set an alarm? Pull the crown out to the first click and turn it tilting the handpoint of the mode to ALM. Pull the crown out to the second click and rotate until the time the desired alarm is selected, swallowing AM/PM time in sub-dial 10 o'clock. Press and release the nearest 2 hours position button to set the alarm or OFF as indicated by the second hand. Once the desire setting is complete, push the crown to the first click and rotate to select the required city, then return the crown to the original position for the time function to resume. The second hand jumps a few seconds at a time, what's wrong? This is a low-power mode warning watch. Once this starts, starts, the watch will run out in about 3 days. To recharge the watch, any powerful source of light is enough to charge it, but leaving it in direct sunlight (whether cloudy or not) for 2-3 hours is the best. For more information on reshare and power mode, please refer to the manual linked below. Learn more: Citizen watches have calibre numbers to show the movement. For the full instruction manual for the Citizen Caliber E650, click [here](#) No products listed under this category. Category.
