Grabkowski The Logitech MX 3200 series is a wireless desktop system consisting of a keyboard and mouse. This keyboard has several built-in functions that are not usually found on traditional keyboards, including digital clocks. This clock works separately from your computer's desktop clock. You have to change the time to compensate for summer time or if the clock is reset due to loss of power. Press and hold the FN and F9 keys on the MX 3200 keyboard until the time is displayed in the LCD window. Press the Right or Left arrow to highlight your selection. You can choose to set the hours or minutes in advance. The selected selection will start blinking. Press Up or Down to change the hour or minute to the desired value. When the desired setting is reached, push Right or Left to highlight more settings. Press Up or Down to change the value of the selected item (either hours or minutes). Push Enter to save your changes at mx 3200 time. This advanced Cordless MX3200 Desktop Wireless desktop lets you enjoy all the media and communication features of your PC with cutting edge performance, comfort, and style. Ready for Windows Vista™, this includes dynamic search controls that let you find anything, anywhere, anytime. The premium comfort keyboard also provides one-touch control over music and video playback functions, including volume controls, playlists and shuffle, and even your favorite Internet calling apps. The built-in LCD shows the time, battery status, and other information. You'll also enjoy ultra-precision performance with a comfortable contoured laser mouse that includes tilt wheel scrolling, flip documents, zoom, and battery indicators.
