Ancubic i3 mega manual deutsch

Here you will find an official guide for 3D printer Ancubic i3 Mega. There are several ways to search for them online. One would be that you have just published the attached printed user manual, but you want to look inside again. Or you're still wondering if you should buy Ancubic i3 Mega and want to look at the manual in advance. The instructions are not in German, but in English – although you should be a little grateful that it is not entirely in Chinese... The manual is now also available in German! You can view the instructions directly online here without needing to download and view the large PDF file. In the following section, you will also find a link to download as a PDF document. With our new and exclusive, you will now also find a guide in German translated by Detlef Süß from Berlin. Thank you so much, dear Detlef! Big brother of the legendary i3 Mega S! Ancubic has become one of the most popular 3D printer brands on the market due to its strong research and development activities. In their business philosophy, they produce simple, affordable and yet high-quality products, they appeal to both enthusiasts and professional users. Ancubic Mega X is a larger version of the popular i3 Mega S with a space of 300 x 300 x 305 mm. Also new is the high-quality Meanwell power supply, which ensures a safer and stronger power supply. Once you've got Ancubic Mega X, you can assemble it quickly and easily. In a few steps, they are ready for the first 3D printing. With the help of the user manual, the assembly is also straightforward for beginners. Ancubic Mega X has a very stable body that significantly reduces vibration and thus improves print quality. Ancubic Mega X is equipped with a new filament cinch, just like his little brother. In a simple and beautiful design, the filament hangs on the holder and allows for a smoother run of the filament. Also worth mentioning is the Ultrabase building board, which provides a very good hold when heated. When cooled, the grip decreases and the finished model can be removed easily and conveniently. Other great features include: High quality extruder for more accurate extrusion Color touchscreen makes it easier to use Filament sensor High quality Wide boot package Auto continue function against unexpected power outages Accurate printing 3D printer for beginners with many features! Ancubic has become one of the most popular 3D printer brands on the market due to its strong research and development activities. With the Philosophy produces simple, inexpensive and yet high-quality products that appeal to both enthusiasts and professional users. Ancubic i3 Mega S is an improved version of the popular i3 Mega with the new Titan extruder and filament cuff. Once you've got ancubic Mega S, you can assemble it quickly and easily. In a few steps, they are ready for the first 3D printing. All you need to do is install 8 screws and connect 3 cables. With the help of the user manual, the assembly is also straightforward for beginners. The body of the i3 Mega S is very stable, which significantly reduces vibrations and thus improves print quality. The new Ayncubic i3 Mega S model is also a filament holder. In a simple and beautiful design, the filament hangs on the holder and allows for a smoother run of the filament. Also worth mentioning is the Ultrabase building board, which provides a very good hold when heated. When cooled, the grip decreases and the finished model can be removed easily and conveniently. Other great features include: Titan extruder for a more accurate extrusion-coloured touchscreen easy-to-function filament sensor High quality Wide start pack Automatic resume Function against unexpected power outages Precise pressure 1 3 3 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 199 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 1 2 3 4 Content 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 Free shipping 99CHFSpares in stock directly in stock
