The same person expresses his mother and his girlfriend. Not good. Shes a voice actor (and damn good at it) she can use voice insoundation and pitch along with other changes to make her voice sound older, softer, calmer etc. Many voice actors tend to play multiple parts, if you look at the list of actors (Imdb) you will see many many parts played by multiple actors (additional voices). Play long enough and play enough classes that you'll be able to tell who made the extra votes. This game was one that with the voice of action and spared no expense in hiring some of the best (famous?) voice actors in the industry. jstankaroslo06.21.2016, 02:20M my female commando man soldier knights. Nevaeh-Heaven06.21.2016, 19:30I can not say that I drew a lot of attention to the voice of the policewoman. Why? Well, she can't stand her battle cry, which is used far to many in any fight. After 2009) Children1[3]Parent(s)Jim Learning (father)Websitejenniferhale.com Jennifer Hale is a Canadian-American voice actress known for her work in video game series including Baldur's Gate, Mass Effect, Metal Gear Solid, BioShock Infinite, Metroid Prime, Overwatch and Star Wars: Knights of the Old Republic. In 2013, she was recognized by Guinness World Records as the most prolific voice actor in a video game (female). Hale appears in such animations as Where on Earth Is Carmen Sandiego?, The Real Adventures of Jonny Quest, The Powerpuff Girls, Codename: Kids Next Door, The Grim Adventures of Billy & amp; Mandy, Brandy & amp; Mr. Whiskers, Totally Spies! and Avatar: The Last Airbender, as well as its sequel The Legend of Korra. In various media, Disney Princess spoke in a biography of Cinderella and Princess Aurora between 2000 and 2010. [7] [8] Hale's biography Early Life and Education was born at Happy Valley-Goose Bay in Labrador, Canada. [3] Her mother was what she called a wandering master's degree, and her stepfather was a microbiologist. In an interview with Tom Bissell of The New Yorker, she described her biological father, James Learning, as an outdoorsman. He was also an outstanding nunatukavut and a prominent environmental activist. [10] She grew up in South America and lived mainly in Montgomery and Birmingham, Alabama. When she was a teenager, she got a voice-over spot on a local radio station where she was paid \$35 just for a call. In 1982, she graduated from the Alabama School of Fine Arts, [13] where she was in the theater department and had an interest in being in a rock band: I started doing voice-overs to pay for life and the PA system and everything else, and ended up just taking over, acting took over. At the age of 17, she worked as a production assistant. She attended Birmingham-Southern College, where she discovered that the program's style was broader than what she wanted to do,[3] and was more interested in film acting; She graduated from law school there. She worked as an actress and continued to perform voiceovers, often commuting between Birmingham and Atlanta, Georgia. [1] [3] [12] Acting, voice over in cartoons Her first major break in acting was in 1988 for the film A Father's Homecoming, [1] which was the NBC film of the week. After doing more regional work, she eventually moved to Los Angeles, where she took on sporadic guest roles typical of young actresses in shows such as Melrose Place, ER and Charmed. Her first major role as a voiceover in cartoons was to Ivy's main character in Where on Earth is Carmen Sandiego? which was based on a series of computer games. Since it was her first cartoon, she was looking for additional classes and workouts. [3] The program lasted many seasons until its last broadcast in 1999. Hale enjoyed the project and noted that it was one of the first cartoon television networks that met educational requirements. Hale's next animation project was Skeleton Warriors, where there were ten cast members, [two of whom] were girls, and we blew ourselves up and mutilated each other every week. The development of a video game tie-in for Carmen Sandi gave her the opportunity to make her first ever voice in a video game. He describes his time with the game as a really confusing experience because it took a lot more lines and time than the show. [3] Her next major video game was with BioWare in their Baldur's Gate series in various roles, which eventually led to big roles in Mass Effect and other titles. In 1994, she was cast as Felicia Hardy/Black Cat in Spider-Man, the first in a long line of Marvel Comics characters she expressed. In various Disney projects, she plays Cinderella and Princess Aurora. In 2003, Hale voiced Ms. Little in the short series Stuart Little. Hale voiced the main character Sam and rival Mandy in the French- and Canadian animated series Totally Spies!. In a 2004 interview, she said: 'I'm very happy that David (Michel, creator and producer), Jamie (Simone, voice director) and everyone gave me the opportunity to be part of the show, it was one of my favorite experiences. She describes Sam as smart and risky, but now you see more of her wacky side and her girlish side, and Mandy as a total snot, which is also funny. She voiced two characters, as well as others in the show and its feature film. The voice game continued to voice Bastila Shan in Star Wars: Knights of the Old Republic and returned for a brief appearance in the sequel to Star Wars: Knights of the Old Republic II – The Sith Lords. She later voiced the female version of Jaden Korr in Star Wars: Jedi Knight: Jedi Academy. In mmoorg bioware Star Wars: The Old Republic, Hale voiced Republic Trooper Female, as well as returning NPC Jedi Grand Master Satele Shan. It is also known as Samus Aran's voice in all three games in the Metroid Prime trilogy, providing beetles and screams as the player moves and takes damage. Hale is also known for her many voices in the Metal Gear Solid series (Naomi Hunter in Metal Gear Solid and Metal Gear Solid 4: Guns of the Patriots and Emmerich in Gear Solid 2: Sons of Freedom). Hale was also the voice of Jean Grey in Wolverine and X-Men and Marvel vs. Capcom 3: Fate of Two Worlds, as well as a small role in Swat Kats. She also voiced British mercenary Jennifer Mui in Mercenaries: Playground of Destruction and Mercenaries 2: World in Flames. In 2011, she was the voice of Ms. Marvel (Carol Danvers) in Avengers: Earth's Mightiest Heroes. She voiced Leah in Diablo III and appeared as Rosalind Lutece in BioShock Infinite. Hale also played the role of Krem, a trans-man in Dragon Age: BioWare Inquisition. Hale was chosen to voice Commander Shepard, the main character in the Mass Effect series. She said she is very invested in helping to make video game history, although she is not a player herself. [14] Although Hale opposes certain lines, if they seem unpatched in other works, he prefers not to mess with the words shepard and BioWare. Although reports have shown that that only 18% of players chose to play as a female Shepard in Mass Effect 2,[23][24] vocal support for her character was high, leading to the fan-driven nickname FemShep,[25] and an email campaign to put her character on the cover of Mass Effect 3., re-nominated for the Mass Effect 3 award, Hale and his fellow Shepard's Voice Actor Mark Meer in 2011's Influences and Acceptance In an interview with The Geek Forge about her influences, Hale cited her peers in the world of voice acting, including Dee Baker, Frank Welker, Grey DeLisle, Tress MacNeille, Kath Soucie, April Winchell, and especially Phil LaMarr. He also admires the work of Edward James Olmos and Mary McDonnell in the Battlestar Galactica series and the film and theatrical roles of Judi Dench. Hale's peers and critics have noted her versatility in roles: Michael Abbott, a Wabash College professor who blogs about video games, said she has become undetectable even though she has expressed dozens of roles. Tom Bissell noted that she was identified as a kind of Meryl Streep in form. In another interview, she said: 'I love anonymity. I could go through Comic Con and no matter how many people could be a fan of what I was doing, we were around and no one knew. I'm invisible. If I had done as many roles on camera as I did a voiceover I couldn't go to the grocery store alone. Hale also stated in the same interview that as shoddy as it sounds, the player is the star of the game. It is the beauty of the games that it is you that inhabits. It's not about someone else, it's about being that person, and if I show up well, I as a person disappear. Your experience is basic. [29] Hale's personal life lives in Los Angeles, California. He has a son. It has several pets. She likes to spend time outdoors and mentioned that she could become an architect because she likes to oversized houses. Although she appears in many video games, she said she didn't play any until she interviewed Tom Bissell for The New Yorker, where she first played Mass Effect. [12] She mentioned that she couldn't even watch cartoons when she was a child. Her hobbies are horses; she mentioned that she is part of a local evacuation response team that saves them from the onsocies of brush fires. [18] In 2017, she wrote on Twitter about her support for the release of her biological father, Jim Learning, who was imprisoned for refusing to sign a restraining order away from Muskrat Falls and who has advanced cancer. [31] Learning is part of the NunatuKavut community as an elder. The student's daughter, Carren Dujela, works at the University of Victoria.
