Bonnie is calling from the other side of the world during the global pandemic, although until recently she was hiding while locked up in Manchester with her long-term girlfriend, Hannah me from the British pop-rock band Hot Milk. That was until her visa expired. It's just so hard if you don't have an end point, she explains about her current situation. Now I'm in Sydney, but the borders are closed in both directions, so I have no idea when I leave... but I'm just trying to hang with guys and get stuff done. A long-term plan is set: Bonnie's currently applying for British citizenship to stay in the UK permanently. Luckily my dad is British, but we just don't know how long it's going to take either, she sighs. It's all just. Bonnie is not the kind of person who leans into negativity for a long time and laughs when she says noone, But what can you do? The truth is absolutely nothing, as Bonnie is all too conscious while promoting her band's latest album. Like other artists on the cusp of their main breakthrough moment – Stand Atlantic was tipped as one of Kerrang! s Hottest Bands already in early 2018 - Leaping off strange precipices. Their second album, the one that follows the exultant pop-punk debut of Skinny Dipping, is something very different – a step larger, wider and less easy to define for alternative sound. The Pink Elephant, rather than enjoying live, will be pored over just bedrooms and socially distanced summer walks (Bonnie is currently praying, like anyone who released an album this year, that touring record will feature in 2021). Their moment has not gone unnoticed by the fans and could be fans. Hours before we were talking, Bonnie posted a photo on her Instagram stories of a man's huge leg tattoo from her face (I didn't know what to do with it because it had to be shown. It's incredibly insane). But even in the very early days of Stand Atlantic, the girl approached her with a massive band tattoo. I was like Wow, we've only got four really bad songs out right now, and someone has already gotten a tattoo... Forget any other kind of motivation we have to do now. It started at five when Bonnie started learning guitar. Her dad was a musician and had guitars around the house. Mostly he'd tell me, Don't band, you do drugs and you die, she remembers. Bonnie claims to be a shy person on the planet who today seems unbelievable. She pushed herself to sing when she was about 16 uploading songs to YouTube. Her confidence was increased when teen musicians began to communicate at the back of the video to collaborate. One of those people was a child who asked her to take the fountains of Wayne's Stacey's Mom with her at his school talent show. I hope the video never comes out, Bonnie laughs. I literally come into the track so off-key, I was so nervous. And I was wearing bright pink trousers. For anyone who grew up in the '00s, it was a case of coming of age in an incredibly diverse musical (and social) landscape – especially if you were a strange woman. To create the belief that even being in a band, let alone in front of one, should be seen as somewhat disruptive. Being a tomboy I definitely leaned against Avril Lavigne and P! nk, says Bonnie today. My mom listened a lot to Janis Joplin and many things that from a small child's point of view were very out of the box. They weren't typical girly girls. I never liked the Spice Girls, the Spice Girls! Starting from being a tomboy and – well I still am, I'm not a typical girly girl in any sense of the word – it was really important to find other women to relate to. Although her musical taste quickly included bands like Simple Plan, Good Charlotte, Avenged Sevenfold and Slipknot. to name a few, these alternative-looking women's pop needed a gate to become what Bonnie is today. It seems to me that if I didn't have any of these women role models, I would still be doing what I'm doing, she continues. But it certainly wouldn't have seemed like it was so believable. When you see yourself in someone else, you think Wow, great. I can do that. The further she gets into her music career, savvy Bonnie becomes. She today finds it funny that she totally believed in these idols of authenticity. As a kid, when you see these people, you don't realize that they are pop stars, really. You're introduced to marketing and you take it at face value and you see interviews with Avril Lavigne and you think, Wow, she's such a rockin skater chick. I always wanted to have that – [just] not a fake version. The unpacked, un-pop itinerary stand atlantic meant that in addition to a three-week spell working on their debut album, they have been constantly touring for years. Unless you're a Spotify band, that's the only way to do it, Bonnie says. You have to be present and be a part of this culture because that's what it's all about. They also knew that they had to leave their geographically challenged continent to reach the rest of the world, and they did so by matching themselves with the biggest names in pop-punk: in the recent past they've supported New Found Glory, National Champs and Neck Deep. Luckily it was before this hectic touring life that she understood her sexuality. I'm all about this emotional connection. I couldn't exclude a trans person or I wouldn't rule out a non-binary person. We're just in the layers of the skin – it's all right. Although she doesn't have that added label, she identifies as bisexual. The real inner work that I did was that luckily there was no journey, she explains. If all the cralessness had begun and I hadn't worked on that, which I would have just pushed it to the side because I had so many other things going on, I would have just seen it as a distraction. In similar ways to gender, queerness was often presented in stereotypical '00s pop culture when Bonnie was a teenager. Growing up there were people, but I hated it so much myself that I just didn't pay much attention to it. Now there's such a diverse representation that you can see yourself in so many other people. I think it's a lot easier for people to work that out for themselves, and if I could have that even just one person, it's super cool for me. The strange part of Stand Atlantic's fanbase is gravitating to Bonnie, often before even knowing about her sexuality (It gaydar on another level, she laughs). I'm just thankful that I can post a photo of my girlfriend I'm not getting hate for it. Obviously I don't want to make my social media retreat into my relationship or anything, but every now and again I like to show something about it just to show people that it's okay. But: a serious moment over. The meaning of fun and nonsense wherever possible is something important to Stand Atlantic – whether it's Bonnie tweeting about the need to change the swab without leaving her out onstage, or posting outtakes of selfie shoots on her instagram jokes – and that's before we've even discussed music. There were only two rules when working on their second album: each song needed a hook and had to actually say something. Otherwise, it was an off-the-wall experiment that proves what they are capable of writing. The resulting width of the Pink Elephant is impressive: although pop-punk provides brick and mortar, the album is decorated with a piano ballad, old school rock, metalcore, electronica and pop. One standout song is their latest single Blurry, an ambitious song with a huge '80s power-pop feel that isn't similar to some Hayley Williams solo material. I'm so afraid to release this song. God, it's not pop-punk! she says. It's about toxic relationships where you need to, but they you up. I kind of made it up – although of course I took the impact out of my life. I always do; I don't think you can write a song without anything going off. Bonnie's dearest wish is that not only can she play it live next year, but that fans of the old and new embrace of the genre's bending potential, Stand Atlantic, have begun to update. People get attachment to the style you had when they first discovered you to give me the defensiveness of that feeling, she says. But at the same time, if you don't change or do anything else, people are going to have to go near you for that anyway. On this subject, Bonnie has one last serious point she's keen to share with her fans. People need to stop being so ashamed of change – that's the best thing, she says. This really is the only way you grow. Stand Atlantic's new album Pink Elephant is out August 7th and available for pre-order/pre-save now. Read more: Posted on August 6 2020, 4:00p.m. Read more
