Private servers have grown popular over the past few years, and the main reason for expansion is clash of clans' store over-priced items. Most of us don't want to spend hundreds and thousands of real money on something we can't feel or touch. It has unlimited military, unlimited access to gold, jewelry and iksir with special servers such as FHX. So, new attack strategies, combination of soldiers, different basic designs and what you can try and once you feel confident enough, it can always come back to the original version. What is a private server and how does the FHX server work? In simple words, a private server is a specially managed machine or virtual machine. Since private servers need an apposite internet connection, power consumption and server up-time maintenance become noisy. However, this had not been a problem for the FHX server. It is mostly up and running, and therefore the FHX server is one of the most used private servers for Clash of Clans.The private server, ingring the developer the freedom to freely modify resources without any restrictions. With the latest version FHX v8, users will receive unlimited resources, all collectors full of Gold, stones, iksir, and top dark iksir.
