aces on betGame sleeves in the open 500 or 9000 I saw a new poor soul lost in this nightmare. Most of the victims trapped in this close circle, fear is the denominator of common minutes. But the man doesn't seem to be trembling like a ghost coward. I saw him walking without fear or despair - instead, I could see his snw peeking around and smiled wryly as he lifted something off the ground. Watching him from a distance, I felt he was lighting a faint glimmer of hope in my heart before disappearing into the shadows. I don't understand why, but I pray luck stays by his side. - From Benedict Ace Visconti, one of the characters who died by Daylight as a survivor. You will be allowed to choose when you meet one of the conditions: a gambler who will give good luck to the whole team. Ace Visconti's biography is just one of the fascinating men. With his distinguished Italian style, chalked silver hair and sharp tongue, he is like an ageless movie star in the 50s. His heart always belonged to the excitement of the card. From his roots, from a poor Argentine boy, he has fought his way to a luxurious life as a high roller in the land of opportunity, with manipulation, cheating, seduction and smooth boa weapons. Money is always flowing through his fingers, but the ace thought he could always win more. In the end, he breaks too much firewood and apparently owes it to the wrong people. When they finally came for the appointment, no man couldNo one knew how much his fortunes had changed and where he had been, but no one who knew Visconti for a while could accept it: he would survive, despite all the difficulties. Ace Visconti's story is a charm itself. With gray hair and an Italian figure with a sharp tongue, he was able to go for an aging movie star over 50 years old. His heart always belonged on the cards. As an ordinary poor wanderer from Argentina, he played with everyone and everything on his way to a life of luxury, deceiving, pampering and became a major player in the land of opportunity. And even though the money often sneed through his fingers, the ace always thought he could win even more. Alas, this was not true - in the end, he was heavily in debt to people who did not need to get in touch. Indeed, when it came time for recitation, aces sank into the water. No one knew who had alerted him or where he had fled. But everyone who knew Ace Visconti agreed on one thing. They will survive even if they have no chance of winning. Records and memories: Pest tactics other than general recommendations for all survivors, Ace's style of play can be complemented by his unique skills to increase the luck of all survivors and help search for breasts: a game in which aces raise their arms in the open castization main article: Ace Bisconti (Cascade) player, this character. Most of the others trapped here, fear is our common denominator. This guy doesn't follow it. Instead, he stands defiantly and analyzes his surroundings with eerie confidence. Just a glimpse of him I could afford. I saw a crooked smile as he cleaned something on the ground. Just looking at him from a distance, I felt him ignite a fleeting spark of hope in my mind just before he blended into the shadows. With the rest of the beliefs I have left, I wish good luck to stay by his side. -- Unknown (potentially Benedict Baker) Ace Visconti is one of 24 survivors currently featured in The Dead by Daylight. He was introduced as a survivor of Chapter 3, a chapter DLC released on December 8, 2016. Description Ace Bisconti is a lucky gambler who improves the odds for the entire team. Despite money always having a way of going through his fingers, the ace always thought he could win more. He never fulfilled his ambition. In the end, he had too much debt with the wrong kind of people. And when they finally came to collect, the ace was nowhere to be found.
