Murdoch Murdoch. I know that people for Murd are the first to have Hola Forums, and the most interaction they have with TRS was guest appearances on one TDS episode and letting Enoch/Sven make a small cameo in one of their videos. MM men seem quite detached and isolated from the alt-right, the social clique. You can't believe the alt-right namepas to tell the truth to the Enoch question because they all have heavy TRS associations and conflicts of dependence and understanding. January 19, 2017 - 18:19 The Carter Phillips issue is that he wateres his workouts by cuckooing for microphones. They scream at the Holla forum about the C& Ding movement, but they don't self-recognize enough to drive a crack here and know that the real one is Enoch himself. 1) He can't stay. I can't make an exception from racingxing with JQ because only a man makes you laugh and gets an X number of page views. It just sets a precedent that the rules don't apply if you're popular enough, and even that is literally what was used as a defense during his interview. This sets a bad precedent where more exceptions are made and eventually turned into civil nationalism. As long as Jews or black are the foundation, goim?2) Enoch's sojourn is doing much more damage. TRSodomite I fixed it for you January 19, 2017 - 18:39 Matthew Carter t. setting it up as a wobbly and shit and basically saying that mike is wrong or wrong. Weo Yok was foolish, even his explanation. He laughed at his Jewish jokes or and eventually grew up banging some non-white huh sucking and non-white huh sucking non-white huh sucking and non-white huh sucking and non-white huh sucking and non-white huh sucking non-white huh sucking and non-white huh sucking no stops non-white prostitutes after he comes to realize that. He didn't scream about how bad they were and he has to go gassed, hiding the fact that he went out them every night. That's the same thing Mike was doing. So for sure, maybe being married to kike-ess taught me how terrible they are. But why was he still married to her!? Why did you try to play quietly and hope it disappears at first? Why doesn't he still take responsibility for it and instead try to explain himself to having it and sending his bad boy out to attack people who end up appearing in a salon article? At least if he believes in the professed, he may have already divorced jewess and moved on with his life. Or at least he was open about it at some point and tried to explain what he did before he started TRS or even came to that kind of thought, and in the meanwhile he's trying to wake her up. But he didn't. He was running her away while marching against promoting degeneration, even appearing on his show, holding silly songs and faked being A WN. Ask why is the only thing you need to do with it!? Why do you do that? If she doesn't believe in WN stuff that is blatantly obvious by what she does, why would she sing and dance literally? Why is he still with that person? Why wasn't he open or honest about it? Why not cover it up, hide it, and literally do nothing to solve the problem? Simple. Shekels. They were making a lot of shekels, and some jewes that his listeners didn't know were singing about killing Jews or w/e, perhaps getting them a LOOOOTTT of shekels because cats are sold. In the end, everything comes down. Mike is a rubbing Shekel and the likes of Morakiw are happy to excuse him for continuing on the Shekel train. I personally don't like this part the whole antifa likes what we're doing. But honestly, fuck TRS. They were wolves in sheep clothes from the beginning, and now they are whispering to anyone who knows the truth or sees through all the. The more that ship sinks, the better. Those who follow or believe in the message can't suddenly be progressives or who love degenerating to spread something mixed race. So, this does not hurt the exercise in any way. All it has to do is expose the fakes that were manipulating/using everyone so that the free ride can end. And that's what everything comes down to. Movements are not destruction or. people suddenly wtf i hate natsoc and love jews now but gravity trained trs IS is going to die, so they naturally think they're the end of the world because they think it's a movement. In short - fuck him, fuck Morrakiu, he can eat steaming piles of cocks. His songs were all tripped up, but his videos were generally pretty good/fun a lot of the time. But now hes showed his true colors as well, he and the rest of the TRS leadership think they're athletic and upset they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as well, he and the rest of the TRS leadership think they're athletic and upset they true colors as

January 19, 2017 - Because of Thomas Allen, we don't dosing WNs (for the record, I haven't been docking or participating in this at all, just hiding mostly). Doxing is being carried out for delays in manipulating and using WN for its own benefit. As I explained here (and summarized here), rank and file members are not targeted. They don't hurt, harass or bother in any way. People who have kept stagnating all this time, are being shown what they are, so that what is happening, can take advantage of them and give their pockets most or less. When we say TRS, it's usually not the members we speak of, it's the leadership. And they are being targeted only by Circlesk, which is increasing the rise of the WN and the fall of the muth religion of diversity. They didn't really contribute anything. Were they always there in line to meme and spread the information? Were they spreading their message on the street? No, and fuck even their leaders can't even spread the message to the head man jewess wife! Instead they were making shit videos full of mundane jokes where we leeched and leeched information, we tried to make, hiding the fact that they were completely useless and the only thing they are completely useless and the top and it set the norms away and hurt our ability to take them to our side because someone on the other side would be like on our side and just like TRS we helped us in some way because ebuluri was on the same side as we were on the same side., to point out whether you helped the cause in any way. They are taking it out for it. They're the WN equivalent of neocons pretending to be on our side, but they're easy to ride for their own good. No TRS rankings and files have been targeted, unless they stick their head out crazy and are not very likely. They are cigars from this. January 19, 2017 - 19:06 Even if You Like Enoch, it's impossible to rationalise staying at TRS instead of at least stepping down gracefully. After Watergate, Nixon decided to resign, and Ford decided to pardon him. Not because they wanted to do this, but because it was the right thing to do to allow the country to heal. Enoch, on the other hand, is strictly refusing to resign. All this is a rip open crack. They talk about moving on from this, but they can't move as long as they continue to allow the race to mix Jewish lovers. And this is a fairly moderate/neutral stance. It doesn't even go into deception and all the. If you like TRS, you should want him to step back to save the ship from sinking. But he's not, and they're doomed to collapse now. They don't have credibility anymore. Unlike the Sinead and Renegades, it will be the butt of jokes. January 19, 2017 - 19:06 William Hall Here's what you'll see here if no one .webm. And worst of all, the lying-rigged sack of that was working with Kike's penis made money on things none of them believed in, mocking people but seeing an easy-to-ride train. If he was legitimate and if he had been open and honest, it would have been much better. It's all fucking rougeAnd you've got kike faggots enabling faggots we want to go with it. It gives a lot of perspective on pushing TRS to be a and ally before. It also seeks fame and attention. Ironically, he was able to keep himself away from the kike-in-a-blur over time, just doing his job, and when all this happened, he said he would get out of it and go with what the community decided best. Because, at least then, he can still have an audience. He's still making shekels, maybe not a lot, or he's going to have to find a new bunch of nouns that connect arms. Either way, he wouldn't have tanked his position in all this. Instead, he was blinded by electronic fame and Shekel, and decided to defend a fiery TRS leadership. He stretched out his arms with them and tried to rationalize everything so that money and attention would continue to flow. And the result would be the loss of both because he was shortsighted and stupid. Or maybe this was it. his swan song. Maybe he wanted to get away from this and go back to Nomi's presence or something. And I saw this as a way to do that. I have no idea why everyone has their panties in the ward for trs. They allegedly threaded us up, but it would have been pretty inefficient because I never found a catalog full of anything more than the usual Holla forum spam. shills on all Hola forums, we laugh at them, and it's usually the end of it, and we never dede 18+ threads over 3 memes in the same spam. So they talked about 8/pol/. So what's? Why is it worth taking seriously, does it matter? Are we chimpanzees in petty provocations like real, real? Full alt-right with fuck trs, I don't particularly care about them, but I agree and am willing not to devote these crazy levels of autism to these people January 19, 2017 - 20:15 Even if Hudson Butler is a true half of them are bad downloads, Of those, the quarter was fbi servers and the rest already January 19, 2017 - 20:15 Benjamin Bailey was a new fags and people who had nothing to argue about kike fucking on January 19, 2017 - 20:17 - 20 degenerate shit leather and you accept it. We are basically the NWO of the right wing. Whenever Hola Forum wants something, it's No matter how hard it is. We're in office to the president, so no one doubts the job. If you suspect that something is still, the accusations go to 4 /pol/. It's fantastic that TRS got BTFO, but I'm worried about them trying to light an 8/pol/fire with new as a kind of petty revenge. It doesn't necessarily do much in the long run, but in the short term it's annoying. If Mike also has the ball to do anything.
