What made it difficult was the constant chamber.] Hindi siya 'yung parang nakapuwesto 'yung mga camera. Steadicam, for sa mga hindi nakakaalam, nakakabit siya sa katawan ng camera operator. Pag nagkamali siya or nag-stop back siya o naalag, uulitin n'yo lahat from the top, he added. [It's not like the cameras are in place. For those who don't know, steadicam is hooked on the camera operator.
