The allocation is based on average grant assistance and federal assistance for loans that will vary depending on your family income. Money granted to you by the U.S. Department of Education, California State Polytechnic University San Luis Obispo or other organizations. These are not loans that do not need to be repaid. Low-interest student loans funded by the U.S. Department of Education. This amount will have to be refunded. Covered by family savings, work or private student loans that you will have to repay. Average annual net price reported for state students receiving a grant or scholarship reported to the U.S. Department of Education's 2014-2015 IPEDS Survey. Financial assistance is only available to those who are eligible. Check out this school's net price calculator to better understand your potential net price. Note that for colleges that do not have rooms and boardings reported on campus, the average net price has been increased to reflect living expenses. This number can not only reflect the net price paid at school for tuition. Is it worth the cost? To make a comparative assessment if Cal Poly is worth the price, measures of its relative value for the tuition dollar can be examined. We calculated an academic score of 75/100 for California Polytechnic State University San Luis Obispo. Given an average net price paid of \$15,253, this leads to an overall ranking of the value of 74/100. This puts the school at 137th of our national best value colleges ranking as a provider of a very valuable education in relation to the actual overall price paid. Comparison of tuition fees to similar public colleges in the region Degree cost When considering the ability to pay for university, the annual cost is often discussed, but it is the cost of the multi-year degree all in that ultimately counts. Let's take a look at what it could really cost for four years San Luis Obispo Polytechnic State University of California. Estimated cost of 4 years of published tuition At current published rates, the estimated total cost of tuition, tuition and living expenses for a 4-year bachelor's degree at Cal Poly is \$113,208 for students who normally graduate. This four-year cost estimate method is a consecutive multiple of the most recent total annual cost reported and does not take into account the increase in tuition while you are in school. It also assumes that you do not receive any grants or scholarships and pay the full price of the list. A potentially more accurate but less conservative estimate of the cost of a degree can be made using the school's annual net price of \$15,253 as a basis. Applying this cost out of 4 would estimate the cost of a degree at \$61,012 if you are on the five-year plan and need an additional year to graduate, your five-year cost could be as high as \$141,510 or \$76,265 using an average net price. Based on a 4-year multiple average annual net price for state students receiving a grant or scholarship reported to the U.S. Department of Education's 2014-2015 IPEDS Survey. Financial assistance is only available to those who are eligible. Check out this school's net price calculator to better understand your potential net price. Other Costs Student Loans and Debt The second consideration after understanding the cost of the university is to determine how to finance it. Some students are lucky enough to have some form of family financial assistance, but student loans end up financing a significant portion of higher education in the U.S. 31% of California Polytechnic State University San Luis Obispo students receive U.S. federal student loans with an average annual federal loan assistance amount of \$5,211. Example Loan Payments and Costs How Many Student Loan Payments for California Polytechnic State University San Luis Obispo? Of course, this varies depending on a number of factors - offsetting the financial assistance you receive, the percentage of fees you pay in advance during your enrollment and the interest rate on your loans. We modeled an example of a student loan based on Stafford's current loan rates to give you a rough idea. Here are the costs of a loan if you borrowed \$61,012, or 100% of the estimated average net price of a four-year program, and you paid nothing during your enrollment. Total payments, including interest, would be \$75,701.90. This be your total effective pocket cost of an education at California Polytechnic State University San Luis Obispo. Note that this calculation assumes that you do not pay full tuition, are among the 50% of students reported to this school who receive financial assistance and you pay an average annual net price of \$15,253. If you are not financially eligible for a reduced net price, your student loan payments could be much higher than this example. Use our own Polytechnic State University San Luis Obispo student loan calculator below to change loan assumptions and recalculate. Student loans are not free money and must be repaid. You cannot reject student loans by way of bankruptcy. California Polytechnic State University San Luis Obispo Student Loan Payments Example Monthly Payments \$630.85 Borrowed \$61,012.00 Interest Rate4.5% Term10 years Number of monthly payments1 20 Total interest cost \$14,689.90 Sum of all payments over 10 years \$75,701.90 Student loan payments and post-graduation salary Can I afford to attend Cal Poly? In the end, the answer comes down to a determination whether you will earn enough to comfortably repay a student loan with your post-graduation salary. This is an extremely important point to consider. In order to pay student loans while maintaining all your other living expenses, it is recommended not to borrow more than you can repay using 10% of your monthly income earned after graduation. If you are planning to attend California Polytechnic State University San Luis Obispo, you should carefully consider whether it will be realistic to make post-graduation loan payments based on your expected salary. Using the 10% salary threshold, an annual income of \$75,701.90 would be required to pay a monthly payment of \$630.85 in the example of the \$61,012.00 loan modeled above. You will need to determine whether it is realistic that you will earn this type of salary after graduation. This requires a 10-year loan repayment. You can change the terms of this loan sample using the student loan calculator below. Estimated future cost and expected tuition increase What will it cost to send your child to California State Polytechnic University San Luis Obispo in the future? Over the past four years, total tuition and tuition fees published in the state have increased from \$5,472 to \$5,742. This equates to an average annual price increase of 1%. Nationally, university tuition fees are increasing by about 5% per year. At five, ten, fifteen or eighteen years old, collegeCalc estimates how much you would expect to pay for a 4-year degree assuming tuition increases at the national average rate. Estimated future prices are based on the current four-yearly true cost of \$113,208.00.
