## Fine sand ffix

Miners are meeting or Soil students extracting minerals from the soil in Eorzea. The raw ore and gemstones they acquired were utilized by the Blacksmith and Goldsmith craft classes. The Miner's Guild is located in Ul'dah. To become a miner, talk to the miner guild receptionist when you are on level 10 or higher in another class. There are two types of collection nodes that miners can interact with: Mineral Deposit (yellow icon on minimap) through mining and Rocky Outcrops (the blue icon on the minimap, requiring a secondary mining tool equipped, first available at level 11) through the mine. For a visual guide to the location of this node, please refer to the Youtube Channel.
