Note how the sebroses are used. Those are the words you're going to learn in this unit. The International Space Station (journal) I'm a brilliant flash of light, the space shuttle blown from a launch pad. It heads towards the International Space Station, or ISS. The shuttle carries food, equipment and supplies to where astronauts live and process. The ISS orbits the Earth more than 150 miles above our Earth's atmosphere. If you looked down at the ISS, you'd see something that looks like a giant bird. The bird's wings are actually solar panels. These capture energy for the station. The bird's body contains a green level S A D L I E R vocabulary workshop TOO Unit 5 displaying the words Read the following j listen to this passage SadlierConnect.com.
