## Arma 3 altis life oil guide

From Gaming Asylum Wiki Starting with Patch 8.1.0, you have 2 options to run oil. The normal way to use the oil rig, and a new way to make fuel trucks drill oil on the ground. Requirements To start your career as an oil broker there are some items you need to get. Boat: In order to collect oil you will need a container to be able to transport the oil barrels from the oil rig to the oil processing platform. You can buy a boat at any boat shop. There is one located southwest of the oil rig on the shoreline. or optionally a fuel truck: To drill for oil on the ground, you must buy a fuel truck at any of the truck stores in Altis. Its options are the Box Truck, Zamak and HEMTT variants of fuel trucks. Talents/Licenses The following talents and licenses are required to collect/process oil. Oil Runner - Increased oil collection and higher rubber yield. Oil Processing License: \$1,000 Method of Oil Operation (Ocean) The steps to execute oil from the oil rig in Asylum are described below. Buy or get your boat out of the ship's garage. Drive your boat to the oil rig a little higher. It is important to look at the speed of your boat and make sure it is zero before you leave or your boat may start drifting out to sea. Once out, you can climb the ladder to the top deck of the oil rig and head to the oil processing machine. Using your scroll wheel you can start pumping oil. Once an oil barrel appears you can move the wheel back with the action menu and pick it up Walk the barrel towards your boat and place it inside this is done again with the scroll wheel. Jump in your boat and head to the oil processor. Dock your boat once again, follow the same procedure to remove the barrel that would place it. Walk to the processor and you can process your oil in both processed oil and rubber. Both resources are very useful, especially when making vehicles. Note: This is the only way to get rubber oil Running (earth) Below describes the steps to drill oil on land in Asylum. NOTE: Make sure you have purchased the oil processing license before drilling! Buy or remove your fuel truck from the truck garage. Drive to any of the locations marked As Oil Field/Hydrogen Sulfate. With the scroll wheel, set up the oil pump. Using the scroll wheel again, drill for oil! Drive to the oil processing plant more and start processing. Drive to the oil operator and exchange your product for money. Deposit your cash by hand at the nearest ATM Note: You will not be able to produce rubber using this Additional Info Care method, occasionally the oil cartel will take you to the oil rig, where dangerous fights will occur. Use the earth's oil wells instead. If you have a friend to help you speed up your oil races, have him load your boat. A Hellcat or Orca is required to do this. Are you running out of space? If you go to the general store you can buy a tent. Campaign. is temporary storage that allows you to store more between your oil runs. Remember, though, tents will disappear after reboots and if they are not hidden rather it can be looted. If you are in a gang and own the Oil Poster you will get more rubber when processing. If you are not the owner of the cartel, a small portion of your rubber will be taken and placed in the Petroleum Cartel. Avoid running oil with a reward, as it's easy for police and bounty hunters to capture you in sacidion. Community-made video guides Edit Comments Sharing Oil Collection is a good way to make money, and will benefit your fellow citizens like selling oil, after collecting and processing it, gas prices will be lower when the economy is updated. Requirements:[edit editing source] Oil processing license (\$10,000 - \$25,000) \$1000 Once to process (In Asylum Altis Life Servers) Optional requirements:[edit ? Editing Source] Car Backpack Boat (On Asylum Altis Life Servers) Sale Price: \$3,200+ (est.) Back to Jobs[edit source] Community content is available under CC-BY-SA unless otherwise noted.
