## I am stronger than the storm tattoo

I have thirteen tattoos as well as several piercings and I think they are all pretty cool. Without a fight, there is no progress. They say that what doesn't kill you only makes you stronger and stranger. If that's true, then wouldn't you have a permanent reminder of the fact that you survived? The main thing to remember about quote tattoos is that they can not be too long. Unless you have a large skin surface that you plan to devote to tat (like a forearm, or the whole back), you need to choose a quote that says a lot in as few words as possible. It must be meaningful for you, but still short enough to fit in a small area. A few years ago, my ex wanted to get something I had written tattooed on her in my handwriting. The quote she wanted was 21 words long, and she wanted it somewhere on her inner forearms. As she was already quite heavily tattooed, there were no criteria such as having to get it in a place that could easily be hidden if necessary. She ended up getting it running on along the down arm next to the word GIRL that was already there. She was lucky. Most people don't have the same flexibility. Maybe your job is too professional for tattoos and piercings, or you don't want your mom to see it. If that's the case, a quote tattoo can be challenging to find space for. Another mistake is to think that you can fit an entire poem (unless there is a haiku) on your wrist just by shrinking the letters down to a size 5 font. Good tattoo artists will only let you make the letters so small, because they know that tattoos mix, fade and bleed over time. The less the writing, the greater the chance that you will be left with a meaningless blob 10 years down the road. I personally did not take my tattoo artist advice when I got my Polish quote on my upper arm and now, 10 years later, what once said Cokolwiek jest ponad pozadanie ja tomam says now coddksdfzjdjaoma. I recently went back through the 2000+ comments I have on my other tattoo articles and tried to identify the most common topics people asked for when asking for help with quote ideas. In addition to being a greedy reader, I've been collecting quotes in notebooks and magazines since I was 13, so I have tons of inspiration to draw from. But if you have any ideas or would like to share a favorite quote of you, feel free to comment! The examples I've chosen for this article may not appeal to everyone. You can read it and get nothing out of it. But my hope is that something will appeal to someone, somewhere, and the words written here will inspire you to take a step you may not have taken otherwise. Quotes about struggle, strength, adversity and courageWhen you wake up, you will have no interest in judging those who are asleep. James Blanchard Pain is inevitable. Suffering is optional. His very first tattoo he received when he was out alone turned out to be prophetic as well as inspiring to him and me: The race is not given to the fast or strong, but those who will endure. He had a tattoo over his chest, and when I saw him in a coma, I stared at this and prayed. Because I needed something to focus when I could not be at his bedside, I had There is always hope tattooed on the right forearm (I am right-handed) so that I could constantly look at it and back me away from the emotional edge. To mark his recovery, as soon as he returns home, I'll get a skull with a bunch of butterflies and birds flying away from it to denote his rebirth and how he cheated death. I think I'm going to get the skull on my shoulder blade and then have the butterflies and birds go over to and over the opposite shoulder.
