VA - An official information and links for Loudoun County government employees, including Loudoun County government employees signing in for managers, access to remote email, and more, 8, Working in Loudoun County Public Schools I Glass 40,htm 180 votes 9. The LCPS Board discusses transgender policy, financial prospects LCPS has a school board policy prohibiting discrimination on the grounds of gender identity, and the council works closely with Equality New Mexico to... 10. Las Cruces State Schools E-format | lcps.k12.nm.us. Las Cruces uses 5 email formats: 1. first initial (52.5%). computer and enter your user ID as follows: Icpsusername. 12. Sub4Loudoun Portal - Quick Links - Google Sites bring your own technology information: LCPS BYOT information. 365. Click here for more information: What is Office 365? Sign in to Outlook. Oracle. By tapping into the collective strengths that every family, student and staff member brings to Monte Vista Elementary School, we create a unique school where Effort and leadership are encouraged and celebrated! LCPS is Over the next three years, students' Chromebooks will give you access to the tools, resources, and information you need to make a meaningful contribution to the world. When do I get my Chromebook? Students who were registered by August 14 could take their device on their council day on the first day of school (August 22). The names of students who have signed up after the 14th will receive a Chromebook as the devices are delivered from head office. Please check your Gmail PPS account to get a notification of when to pick it up. If you don't get it by Thursday, August 29, please stop by tech help room in the library. Lenovo 300e Chromebook, 2nd generationAs if I prefer to use my personal laptop? Whether you use an LCPS-Chromebook on a daily basis is up to you as long as you have a device. However, we will still have to issue each student device as this is the only thing you can use for testing. SOL tests require, in particular, a fully loaded Chromebook. Mathematics also uses a guiz/guiz program that requires a Chromebook issued by the area. Finally, only LCPS-controlled devices can connect to the print network here. There is no way to create a personal print device or run these tests. If you feel best with your own laptops, we recommend taking a Chromebook home and leaving it there on normal days. Wear a device every day, as teachers are asked to let students know in advance when a Chromebook is specifically needed so you can bring it in these days. Can I get my Chromebook home? While you and your parents have signed the LCPS Device Usage Agreement and the Student Rights and Responsibilities Handbook, you can take your device home. You must sign to StudentVUE to access the & Device Usage Agreement and the Student Rights and Responsibilities Handbook, you can take your device home. customize my device? Students can add decorations or customize their device as long as these decorations are removable. For example, you can use decorations are removable. For example, you can use decorations are removable. For example, you can use decorations are removable. interfere with the operation of the device (e.g. accessories that may damage the screen when closing). Ventilation holes and LCPS markings and labels must not be covered or moved. If students customize the wallpaper or background, students are responsible for providing the right images for a school environment. How protect me when I use the device? Loudoun County public schools have filtered Internet access through your Chromebook. Even if you're at home or connected to another wireless network, the Internet content on your Chromebook always goes over the Internet Filter. This is to protect you from inappropriate or harmful content. My device is personal only to me? Because your device is provided by Loudoun County Public Schools, LCPS has the right to monitor the use of your device, as well as things you store on services provided by LCPS, such as email, Google Drive, or Office 365 OneDrive. In addition, LCPS uses a monitoring service called Gaggle that monitors student email content, Google Drive and Office 365 OneDrive and Communicates content that applies, Remember that your LCPS chromebook is only for use at school. Keep this in mind if you plug a personal device such as a phone — into your Chromebook. If you do, you'll give LCPS and Gaggle access to everything on your phone, including photos to text messages. Yes, LCPS monitors your Chromebook. But despite rumors from your friends, no, they can't hack into the webcam and look at you. Only the materials on the Chromebook itself that are not around it are observed. Can I print from my device? When you are at school, on wireless LCPS-secure, you can print a photocopier in the library using portable printing. At home, you can connect to a cloud-ready printer using Google Cloud Print. What can I do if I don't have internet access at home? If you don't have internet access at home, you can edit documents, pages, and other items on Google Drive offline. When you connect to the Internet, those items you've worked on will update automatically. If you need to go online, you may be able to find places near your home that offer free wireless internet connections. The public library, restaurants or cafes are good places to try. If you're connecting to a public wireless network, make sure it's a network you recognize and trust. What should I do if I have problems with my Chromebook? If you're having problems with your device, try restarting your device and signing in again. A simple reboot will solve most of the problems you have with your Chromebook. If you're still having problems after a restart, go to the tech Help desk, which is in the library, through the purple door on the left. It is open before school (8:30-9:05a) and after school (4:05-4:30). You can also get a pass from noon to visit the helpdess. You should never try to fix your Chromebook yourself. Always ask for help if simple troubleshooting steps don't solve your problem. What is the value of the substitution? The price of a Chromebook is 300 BGN. The cost of the charger is \$ 20. What software and services will be available? Chromebook does not run traditional software applications running on the Internet. These Cloud apps can be accessed and used on chromebook just as they can on any modern web browser. G Suite for Education and Microsoft Office 365 are two Software app productivity packages that students can use on their Chromebook can also run small software programs called Apps or extensions that can be installed on the device through the Google Play Store. Students can only install apps and extensions that are approved by LCPS. Students can access many other cloud applications and resources through LCPS GO. How long will I keep the Chromebook Storage Device? All devices will be returned to the school in the summer. After the next school vear students will be issued the same device they used in the previous year, unless the student moves to another school. If they enroll in another L.A. school, they will receive a device from their new school if the new school has participated in the technology model. All schools will participate in the 2020-2021 school year. I'm having trouble getting into school programs, like Avience, through LCPS Go. How do I fix it? First, try turning off your Chromebook and restarting it. (Yes, it has a power button!) If that doesn't work, clear your browser cache & amp; quot; cookies & amp; quot;. By default, it's to clear the last hour, but that won't be good enough. Select all times. The continue to support learning during school closures. The resources on this page will continue to be updated as more resources are available. In addition to the resources listed below, please contact your local public library as they have prepared a wealth of resources to provide support during this closing school. Also, please check the pages of your individual media center for websites and subscriptions that can be unique to your school. K-5 Online Resources Calvert: Virtual students have access to their virtual platform. Opening daily education DE: Looking for meaningful and engaging training activities? The Daily DE offers class-friendly learning activities for every day of the week. From digital interactive to virtual field excursions to fun science experiments and more, these daily activities are great for keeping learning at home! ExactPath Edmentum: Login Information: Account Name (123456smi) Password: Birth Date in the following format: YYYYMMDD (20101228) Basic Math: In Preparation for School Closure, San Francisco Unified School District has produced 10 days of activities are designed for students to do on paper without technology. GoNoodle: GoNoodle: GoNoodle: Mathieut technology and the students to do on paper without technology. GoNoodle: GoN of movement and attention! These fun, engaging brain breaks will have kids up and move! IXL: This fun, interactive exercises, video instruction and a personalized learning board that enables learners to learn at their own pace in and out of the classroom. Creating an account and confirm via parental email, students can choose areas of interest for them and start exploring interactive learning opportunities! Michigan Electronic Library (MeL): From the Michigan Electronic Library, MeL offers a variety of educational resources including games, online stories, tutorials, encyclopedias, databases and more! MYSTERY SCIENCE: Broken down by grade for class K-5, MYSTERY Science provides expertly developed lessons to engage students, achieve learning outcomes, and be easy for teachers and parents to use. They have short mini-lessons that are completely digital and complete tutorials that involve activity. All activities are designed to use simple deliveries that the parent will probably already have at home. PBS LearningMedia: A level search, PBS has curated thousands of educational videos of great interest to K-12 students! Students can learn more about space, hear their favorite story, listen to a biography of their favorite celebrity and much more! Schoology: Communicate with your teachers, find tasks and much more. Check out this STEMScopes student guide: STEMScopes provides online access to the comprehensive digital science curriculum currently in use in our area. Storyline Online transmits videos of famous actors and actresses reading well-known children's books along with beautifully produced illustrations! Students can watch several stories every day! TTJunior: From the Smithsonian Institute, this comprehensive site provides thousands of articles across a wide range of Lexile levels on a variety of high-interest topics! Youcubed: From Stanford University comes this incredibly innovative math site finished with lessons, worksheets and games to challenge the minds of students in K-12 classes. 6-12 Online Resources Discovery Education: Discovery Education provides access to thousands of multimedia resources including video, phonograms and much more! If you are not sure if your password is insecure, please contact your teacher. Opening daily education DE: Looking for meaningful and engaging training activities for every day of the week. From digital interactive to virtual field excursions to fun science experiments and more, these daily activities are great for keeping learning at home! Edmentum Courseware: Virtual students master mastery Skills at your own pace through fun and interactive guestions built into support and motivating rewards. Cannes Academy: Cannes Academy offers highly interactive exercises, video instruction and a personalized learning board that enables learners to learn at their own pace in and out of the classroom. Creating an account is easy and free! Once you create an account and confirm via parental email, students can choose areas of interest for them and start exploring interactive learning opportunities! Michigan Electronic Library, MeL offers a variety of educational resources including games, online stories, tutorials, encyclopedias, databases and more! Microsoft Office 365: Access your email, cloud documents, and more. PBS LearningMedia: A level search, PBS has curated thousands of educational videos of great interest to K-12 students! Students can learn more about space, hear their favorite story, listen to a biography of their favorite celebrity and much more! Schoology: Communicate with your teachers, find tasks and much more. Check out this Student Schoology Guide Science Friday: Covering the outer spaces of space to the smallest microbes in our bodies, Science Friday is a source for fun and educational stories, podcasts, and vidoes about science, technology, and other cool things. Smithsonian Tween Tribune: From the Smithsonian Institute, this comprehensive site offers thousands of articles in lexile's many levels on various high-interest topics! STEMScopes: STEMScopes provides online access to the comprehensive digital science curriculum currently in use in our area. Youcubed: From Stanford University comes this incredibly innovative math site finished with lessons, worksheets and games to challenge the minds of students in K-12 classes. Xello: Based on academic and consumer research, Xello's award-winning program puts the student at the center of their planning experience. They build personalized plans for the future, as well as skills and knowledge to preserve. Continue.
