This is a handmade custom kydex sheath made to fit ontario rat 3 fixed blade knife. It is made of sturdy and durable .093 kydex. The RK sheath features a taco (folding) design that gives excellent retention, strength and durability. Each sheath is handmade and the retention is set so that your knife is held firmly in place until you need it. The built-in thumb lamp is lowered to allow a better grip on the handle when drawing the knife. All RK sheaths are completely two-handed. They are transported to both sides of the body and can be drawn from any direction. All RK sheaths are compatible with large and small Tek-Lok, Spyderco GClip, M.A.L.I.C.E. clips, or clips that take advantage of 1/2 spacing. Choose a color from the drop-down menu. Custom patterns may be available. If there is a specific pattern you are looking for, send me a message. This sheath comes without a clip that allows you to attach yourself or use the sheath for neck carrying. If you don't order the attachment, it will contain about 40 inches of paracord. It can be quickly attached to belts, straps and MOLLE webbing for easy access to knives. If you have another carry option you prefer, check out my other list. Ontario Rat 3 Only Measure 5 1/2 x 2 3/16 Each Sheath is custom made when your order is placed. Take some time to do this. A typical lead time is 3-5 days, but it can be different. Kydex can mark your blades. I tape the blades when forming these sheaths, but I can get some scrapes on the blades. All RK sheaths are proudly made in the United States, using only the best materials available. I am so confident in my RK gear that I offer a lifetime warranty. If your gear breaks, I will repair it or replace it for free. Your RK gear was built to last and withstand the severity of everyday carrying, including tactical and survival situations. Your lifetime warranty covers sheaths and non-removable hardware. Soft Lok, TechRokes, M.A.L.I. Attachments such as C.E.Hooks and third-party accessories provided as accessories to my product are not covered by the lifetime warranty. You need to email me to submit a warranty claim and why you are returning the gear before sending the package. Return shipping for repaired or replaced gear should include \$5. Introduction of versatile ESEE-3 Kydex Sheath | Introduction of versatile ESEE-3 Kydex Sheath | Our revolutionary ESEE-3 knife builder allows you to easily create your dream knife.
