Nyrius aries prime not connecting

In this video, we'll show you how to optimize your wireless HDMI signal by pairing Nyrius Aries Prime (NPCS549). This process triggers the transmitter and receiver to search for each other if they need to be reconnected. If you experience the following, use these steps: Intermittent signal No sound No video Image quality issues In this video, we'll show you how to optimize your wireless HDMI signal by pairing Nyrius Aries Pro (NPCS600). This process triggers the transmitter and receiver to search for each other if they need to be reconnected. If you experience the following, use these steps: Intermittent signal No sound No video Image quality issues This video will walk you through the process of pairing the aries home (NAVS500) and Aries Home+ (NAVS502) Wireless HD transmitter and receiver. These steps can be used to improve signal strength or reconnect an offline transmitter and receiver. If you experience the following, use these steps: Intermittent signal No sound No video Image quality issues Solution How to connect Nyrius Aries Prime Wireless HD Transmitter & Receiver (NPCS549) Aries Prime HDMI transmitter system comes bundled. In case the transmitter and receiver do not communicate with each other; manual pairing may be required. The maximum range of Aries Prime is 10 feet with open space with a clear line of sight. Make sure that there are no obstacles between the transmitter and the receiver, such as the floor and walls, do not place the receiver behind the TV. Both the transmitter and the receiver should be at least 2 meters away from wireless devices, including Wi-Fi routers. Before starting the pairing process, check the HDMI and power connections from the receiver to the TV, and the HDMI and USB power connections from the transmitter to the audio video source. Now you're ready to pair the transmitter and receiver. To pair Aries Prime manually, follow these steps Disconnect the power from both the transmitter and the receiverPress and hold the power button on the receiver and reconnect the power adapter Trigger the power button when the power button flashes. Please enable registration on the transmitter device displayed on TVPress and hold the pairing button Connect the power to the transmitter continues to hold the pairing button until the power light flashes more slowly. The TV should then display Adding the NPCS549Spower lights will both stop flashing when connected and the video will appear on the screen ×Sorry to cancel CSS error 1 Table of contents 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 2324 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44
