As in the famous counterparts, here games expect breathtaking graphics, realistic combat mechanics, interesting draws and well developed multiplayer. In the story campaign you will try on the role of a member in a unit specialized in the fight against terrorism. The player moves around the card, doing a short job. It is the most notable feature of the game in the first place - the mission was much shorter, they take three or four minutes. In addition to doing the core tasks of Modern Combat 5: eSports FPS the game should take on additional duties, reward experience and money. In the process of passing you can spend accumulated resources improving agility and weapons. The player is able to sway in parallel multiple combat classes. The development of each character is preserved during multiplayer, therefore participation in the single player campaign is useful not only to discover the plot, but also to keep competitive among other games. In multiplayer mode you are waiting for the learning variety of modes and maps. It is possible to create your unit. The game is not too different in mechanics from the previous installations. You will not be able to use an external joystick, they will have to get used to their control via button on screen. Very nice graphics, everything seems likely and dynamic, and the location is not irritated uniformity. Modern Combat 5: eSports FPS can be called one of the best shooters for mobile devices, as well as the honored legacy of the corresponding game series.
