Dnd goliath names

Goliaths are very tall humanoids with an average of between 7 and 8 feet. Alongside their size, what you'd notice is bony mane and eyebrow highlights, along with their bright blue or green eyes that are known to shine in time. They are very competitive, but they don't like cheating, rolling, and pain losers. They tend to compare things to previous situations and achievements, and that makes it look presumptuous that it's simply not true. They usually live in small tribes, with relatively strict hierarchies and clear roles. They try to avoid fighting, but when forced to fight, they can quickly become an organized war party that fears close to nothing and actually creates a terrible vision. The Least & the Last, as others sometimes term them, Goliaths are probably the final product of the Titans bloodlines in the world. Despite these perjoratives, their long bodies appear as if they are carved from mountain rocks & give them great physical strength. Their spirits wander after the wind and often make them to drinkers who wander from the peak to the summit of the air. Their hearts are infused with the cold of their Frigh homelands, each time struggling with responsibility for earning a place in their tribe or dying. Driven competitors, every day a new challenge such as food, water, & extremely rare shelter arrives at the highest mountain or brings vast explosive plains, where a single mistake can bring doom to the tribe or a person's heroic quest can ensure everyone's survival. Goliaths thus place a premium on self-sufficiency & individual skill. They have a compulsion to keep score, counting their deeds & tallying their accomplishments to compare to others. Goliaths love to win, & tend to see defeat as a lesson, a prod to improve their skills & outdo their past efforts... Such dedication to competition has a dark and obsessive side that has corrupted more than a few people. If someone kills a dragon, they may be looking for a bigger wyrm, more powerful to battle. Few Goliath adventurers reach old age, as most die trying to outstep their past successes. Physically they have no appreciable sexual dimorphism & they find societies with roles divided between the sexes to be puzzling. To Goliath, at the end of the day someone who is best at a job should be the one who has a duty gestation انجام آن. بدون در نظر گرفتن شرایط موفق یا بالفوه مانند انتظارات خود را خواستار نگرش pitiless محیط. Clans of Gram Holding to the remnants of their ancestors & finding much in common with their Dwarven neighbors, the rarer Goliaths of Gram adhere to a much more rigid & lawful existence than their cousins in nearby countries. Dwelling in the mountaintops along the south-eastern edges of the Dwarven empire, they keep wary eyes on the world for their allies & in return are viewed with some awe as living manifestations of divine blood by the Dwarvenfolk. Life is still hard, but their active community roles & clergy keep them focused & sincere in their efforts to improve their surroundings, lending them to create permanent, stone-slab based settlements in the heights. These are the Goliaths who give rise to the reputation for honorable competition as recreation & a strict meritocratic mindset. Clans of Tuch Bitter & broken, the wane & warped inhabitants of Tuch hold to neither the lawful traditions of their western neighbors nor the harmonious passions of distant Parth's clans. Few in number, these wretched & gaunt beings struggle daily simply to exist, as twisted & tormented by the land as it's other denizens. از اردنتمدان دیوانه از Syhl بیشتر به طور فعال پرستش خدایان تاریک. که فریاد berserk رزمندگان. به آسمان به عنوان آنها گوینت خود را به obsenities یا توجه به نه زندگی و نه منطق.
