Lego star wars 3 cheats characters

Photo: Lucasfilm Ltd. / Bad Robot Productions / Marvel Studios adequate enough, Hollywood has an expression for a pitch for a film involving the correlation of two existing properties. This is called a big pitch concept. An example would be The Fast And Furious meets Star Trek. This is intended to make a clear picture in the listener's mind without having to go into too many details. When considering stories, characters can often be described in this way. Han Solo is a combination of Flash Gordon and The Man with No Name from The Good The Bad and The Ugly? Spawn is a combination of Venom and Punisher? Deadpool's just Spider-Man with guns? These comparisons are useful in understanding or even writing a character, because by using familiar reference points, some things can go unsaid. No person can be described as being the same as one another, but one can use common reference points as some kind of abbreviation to describe what someone is like. People are attracted to the fictions in which they see themselves; this is why we believe we can accurately describe you in terms of a combination of characters from the properties of Star Wars and the Marvel Universe. In all the Star Wars movies, Wars, The saga has introduced so many iconic characters that everyone is bound to have their own favorites. However, in the franchise created by George Lucas, a series of captivating Star Wars characters stand out from humans, aliens and droids across the galaxy. Here is our take for the 10 best characters featured in the Star Wars saga. Just so you know, we're looking at the eight original live-action theater films as a whole. So don't expect Darth Maul to be listed here, as his appearance in the movies was unfortunately limited. 10th Jyn Erso Jyn Erso in Rogue One: A Star Wars Story | Lucasfilm As the main hero of Rogue One: A Star Wars Story, Jyn Erso is much more than meets the eye. The first trailers described it as a rebellious grievance, but after seeing the film, it's not hard to see its complexity. He's someone whose life was stolen through war and destruction. She's inspired to fight for something bigger than herself and sacrifice herself for the sake of the galaxy. Our only regret is that Rogue One might very well be her only appearance, although rumors that Felicity Jones is signing on for an additional Star Wars movie give us hope for at least one cameo sometime on the way. 9.C-3PO Anthony Daniels as C-3PO | Lucasfilm Alongside R2-D2, C-3PO holds the distinct honor of being one of two characters appearing in every Star Wars movie, from The Phantom Menace to Rogue One. Anthony Daniels brings a special life to the protocol droid, giving us someone who is equal lyaming a nag, and a trusted friend. Beyond that, he spoke of some of the most quoted lines in the entire franchise, all while conveying a series of complex emotions behind his stiff gold suit. Suffice it to say, the Star Wars saga just wouldn't be the same without it. 8. Emperor Palpatine Ian McDiarmid as Palpatine in Star Wars: Revenge of the Sith | Lucasfilm The Dark Lord of the Sith, Palpatine - or Darth Sidious, according to which alter-ego you speak - is the symbol of evil in films. After being described by Ian McDiarmid, the character systematically conquers the galaxy throughout the prequels, essentially manipulating the entire galaxy at his will. Until that fateful moment at the end of the Jedi return, almost everything in the saga happened according to his drawing, according to him easily. The cheerful satisfaction with causing death and destruction makes him one of the most indres of cinema of all time and a Star Wars character that moviegoers can't hate. 7. Leia Organa Carrie Fisher as Leia Organa in Star Wars: Empire Strikes Back | Lucasfilm Leia may be the female lead of the original trilogy, but she is unfortunately one of the few notable women in the saga. However, after being described by Carrie Fisher, the character brave, and the command from the first moment she appears in A New Hope. A member of the Imperial Senate as leader of the Rebel Alliance, she matches Han Solo in courage and Luke Skywalker in the heart, initially serving as the most sophisticated prospective member of the three. Even when her story leads her to that iconic gold bikini in Return of the Jedi, Leia seizes the opportunity, killing Jabba himself Hutt. 6. Obi-Wan Kenobi Alec Guinness as Obi-Wan Kenobi in Star Wars: A New Hope | Lucasfilm Unlike most of the characters on this list, Obi-Wan Kenobi does not have one, but two talented performers who bring it to life on screen. Sir Alec Guinness played the Jedi Master in the original trilogy as a wise mentor to Luke Skywalker, and Ewan McGregor brought to life a younger and more vibrant side of the character in prequels (eventually becoming one of the most powerful strengths of those films). In both incarnations, Obi-Wan is the book sheet for characters such as Qui-Gon Jinn and Han Solo. He is the saga version of the archetypal knight or samurai warrior, completely dedicated to his order and the moral compass of the saga, alongside a certain diminutive colleague (more on him later). 5. Rey Daisy Ridley as Rey in The Force Awakens | Lucasfilm We still don't have the full story on Rey's background, but that doesn't make her any less of a great character in Star Wars lore. Daisy Ridley's stellar performance gave the saga a truly intriguing heroine, balancing her feelings of abandonment with a heroic streak we've seen over time. And as the new trilogy continues, we wouldn't be at all surprised to see her become a powerful Jedi in The Vein of Luke and Obi-Wan. 4. Luke Skywalker Mark Hamill as Luke Skywalker in Star Wars: Return of the Jedi | Lucasfilm When the audience first meets Luke Skywalker, the character is desperate for an escape from his life as a farmer on Tatoo. As such, he immediately fills the role of public proxy, allowing characters like Obi-Wan and Yoda to indoctrinate him in the ways of the Force just as the audience is swept away in his adventure. Throughout the original trilogy, Mark Hamill conveys Luke's original naivety, as well as his growing understanding of the complex world of good and evil he has reached. By the time the final film runs around, his journey is largely complete, with the innocent farm boy turned into a Jedi Knight who comes face to face with Emperor Palpatine himself. 3. Yoda Yoda in Star Wars: Empire Strikes Back | Lucasfilm The thought of a Muppet-like creature to join the Star Wars universe must have been a little shaken to the public in 1980. However, Yoda - cast by Frank Oz - is the spiritual heart and soul of the Force throughout the saga. As strong as he is, the character The Jedi Council in Palpatine fights in an epic confrontation and finally trains Luke Skywalker to become the last remaining Jedi. Moreover, he remained a fan-favorite due to his infectious quotable dialogue, its endearing appearance, and his skills with a lightsaber. Yoda himself warns Luke not to judge him by his size, and the audience has listened to him, allowing the 900-year-old little warrior to develop into one of the saga's most beloved characters. 2. Han Solo Harrison Ford as Han Solo in Star Wars: A New Hope | Lucasfilm The Millennium Falcon Pilot, Han Solo has a unique place in the Star Wars saga. While Luke's desire to become a Jedi and Lea's goal to destroy the Empire motivates them, Han begins as a stranger who only helps Luke, Obi-Wan and the droids so they can pay off a debt. Along the way, he forms a friendship with the Skywalker twins (and romantic love, in The Case of Leia), which leads the smuggler to develop into a general for the Rebel Alliance. Despite that, he always has a sarcastic remark at hand (poring conversation anyway ...) and shares an indelible connection with the chewbacca co-pilot. With a solo han film in development, anyone who assumes the role from Harrison Ford certainly has his work cut for him. 1. Darth Vader Hayden Christensen in Star Wars: Sith Revenge | Lucasfilm At this point, you can't say much about Darth Vader, who hasn't already been recognized. His intimidating costume and pervasive mechanical breathalready give the character a menacing quality, and with the voice of James Earl Jones, it's no surprise that he's one of the most iconic characters to have ever honored the silver screen. Perhaps the strongest testament to just how revered Vader is is that fans still largely consider him to be the best Star Wars character, despite the criticism they released to actors Jake Lloyd and Hayden Christensen portraying pre-Vader Anakin Skywalker. Even so, Anakin/Vader's journey is the crux of the entire Star Wars saga, painting a tragic story of salvation in the hands of his son.
