In an attempt to strengthen the suppression of the Resistance, Takinism directly gave birth to a superweapons capable of destroying the planet, the death star of which the physical scientist Galen Ezzo (Max Mickelson Mads Mikkelsen) was the main architect of. Ezzo's daughter, Physie Jones Felicity Jones, was raised as a child by the rebel leader, Soe Guerra (Forrest Whitaker). As an adult, he became a prisoner of the empire, only to be rescued by the rebel group. From Guerrera, she learned about the existence of the Death Star and witnessed a city of ash and smoke. But rebel alliance is determined not to believe in the existence of the Death Star, the helpless piano and pilot Kasian Ando (Diego Luna) and others went alone to collect the Death Star design of the planet, the fate of the entire universe of the war began ...
