As part of a recent update to our software, users must create a user profile to access utility bill information and online payments. To establish a user profile, do the following: Open . This will lead to a new login page. When you first access this page, you will not yet have the username and password required to access eUtilities. They will be created in the next steps. Click Create Your Account. The Confirm Account page opens. It will consist of an account number field full name on your account, exactly as it appears in your account. User User Identify your account by entering the appropriate values and clicking the CONFIRM ACCOUNT button. The Activate Account page opens. This page allows you to create new login credentials, that is, usernames and passwords that you will use to log on to eUtilities in the future. All fields in this window are required. Make the necessary entries and click REGISTER. At this time, the user should check their email. They will receive an email with a title similar to the following: Requested UM account creation eSuite. It may take a few minutes for an email to arrive, but when this happens, the user must open it and click the link that is in the body of the message. Just clicking on this link will complete the activation process. Finished.
