Assuming your average retail profit on the products is about 25%, your total immediate income could be \$120 (30% of 400 BV). Additionally, when your total personal PV exceeds 50PPV points, you are eligible to receive performance bonuses. According to the Performance Bonus Schedule, you will receive a Performance Bonus of 3% on your 400 BV, or \$12, plus your total immediate income of \$120, giving you a total monthly income of \$132 or a total annual income of \$1584. (1) Not everyone will, of course, have 100 points per month. Some will have fewer and some will have more. This number is used only to demonstrate business opportunities. (2) Proposed retail profit varies by product and average 30%. The total number of PV purchased by yourself and your downline in a specified specific month The percentage of bonuses for that month. The bigger your team PV, the higher your Performance Bonus percentage. Calculate your performance bonus on the total number of PV-focused units sold, not on the selling price per unit. When inflation makes prices rise, each IBO receives a larger bonus for the same number of units sold. If your total monthly score is / see % What is your bonus: 7500 points = 21% of BV 5000 points = 18% 3250 points = 15% 2000 points = 12% 1000 points = 9% 400 points = 6% 100 points = 3% We have discovered that JavaScript is disabled in this browser.
