Jarey White, President, p9 ahead by the neugator. The introduction of p11, a New Day p11 says that it is important to give true information about creation to both the Bible and nature, the fact that the facts of nature may not possibly line up with the truths of the book. Choudhary's short story of coming to 1 st. Christ flash point, and the p14 of his first angry clash with young earth kryatavanists. P14 did not raise a moment's doubt about the fact of scientific evidence of earth's origin (a few billion years ago) and the beginning of the universe (a few and billion years ago) about the need for a creator. Nor did I read the first Birth 1 creation account when I was concerned. It has not been honestly registered with me or it needs to be suggested that the earth and the universe are only a few years old or have calendar days continuously on the day of birth. The truth of the text and the need for inverse interference is not a threat from the facts about the earth or the age of the universe. These allegations and the p15 as men and women whose lives and work are not condemned as list winning spirit or leading spiritual progress, but the last 40 years were given only by the universe and the earth for age. From page 243 of the day's case. The panel that prepared the report began with a assumption of the strict Bible aneransi. Four theories they came up with reference from a matter of days: Calendar Day: The days of creation consist of six successive 24 hour periods which are historical and important. Age of the day: The date of the day of creation is six long lifespans which are historical, order, and historical. Framework: Creation week with GodAs in creation is a statement to describe actions and will be considered as situations instead of the order and duration indefinitely. Concomitant days: The days of creation are consistent, but essentially, human day, it is that, the same, but of an indedefinable length. Here is the International Conference on the Bible's Inerransi statement, agreed upon by everyone except Henry Morris (page 242 days): We confirm that translators must be relevant to the word in harmony and be followed by correction. We deny this Book Stranger preunderstands need to fit, contrasting with themselves, such as the double-ness, atheism, secular humanity, and the railatawasm. We confirm that since God is the author of all truths, all truths, all truths, and to correct the wrong interpretations. We deny that The Trebablockal has ever denied or preferred the teaching of scriptures. We confirm the common revelation of Bible education with the facts of nature and therefore the harmony of the special. We deny that any real scientific facts are at par with the true meaning of any of the scriptures. We confirm that birth is 1-11 in reality, as the rest of the book is. We deny that births are a wholesome of the teachings of 1-11 and teach scientific hepothasas about the creation of those who are born.
