This server is based off of the anime Naruto and is a mmorpg server. On this server you can go on an adventure as a ninja. With friends or alone, you can outdo each other by training hard and fighting monsters and rogue ninjas. You also have a main story line that you arrive by going spawning and clicking on the sign that says warp to missions room and hundreds of side missions that are randomly placed in the map and in the missions room. Plugins installed on server: MagicSpells, WorldGuard, Worldedit, Essentials, Herochat Hello guys, I'm LatinusSumKangarko a.k.a. KangarkoSenpai, administrator of Ace Of Swords and contributor to Mathioks's Naruto Anime Mod. Today I'm here to show you our project!! Ace Of Swords was born as a result of a collaboration between the Italian Minecraft enthusiast and with some multiplayer earlier works, to offer you, as a player, the best experience we could allow! During the creation, xFabio suggested that I collaborate between the official server for Mathioks's Naruto Anime Mod that I was creating and their network. I replied: Why not?! and then... Here we are! After months of hard work, we are close to the greate opening! have a quiet, beautiful and unique playtime! ADMINIS: Electro71: The owner. Just a litte genius between building and coding, with a lot of knowledge in multiplayer systems! xFabio: Our developer, our Java Portable Edition. Knows everything, encodes everything, realizes everything. Our main plugin is even made by him! M1n3x_crafter: The Builder. And also the server manager. But mostly builder. Have you ever heard of the from M1n3x builder? KangarkoSenpai: I. I am general manager and founder of the Naruto section. HELPERS NickWrecks: Well, who here doesn't know Nick? Not? a modeler of the mod and the first Helper of our server. IP : 37.187.172.174:25622 Version : 1.7.10Type : Modded ServerThis is a premium server! Download mods : 1.7.10 : ... taller.jarWhat is Garuto Craft and how to play? Garuto Craft is the only naruto public modded server in the world. You will enjoy playing this rpg server of naruto with your friends. Pass the academy and become a genin then you will be passed a squad with 3 Genins and 1 Jonin you will complete many missions with them and train and gain experience for the Chunin exam. Then if you think you are ready to participate in the exams that are hosted every Monday and if you win or show skills you will be promoted to the Chunin grade. If you're a genin, you can take missions at Hokage's office from the npc on mission rooms the system works like this:Genin can get D-grade missions. Chuunin can get D and C grade missions. Jounins can have D,C, B missions and special messions such

as a rank and s at the hokage office. You will be a Jonin after experience on the server as a Chunin and hokage to approve also the same applies to Anbu. You buy kunai, shuriken, paper bomb, swords at black smith and food at the meat shop and and cake in the bakery and flowers at the flowers store also you eat ramen on Ichiraku. Peoples can not see other peoples chatting long distances, but only about 15 blocks = 15 meters as on real life, because chat will not be spammed like that. You even fight inside village as in real life and you even break outside it to create traps for the enemy with fake grass of traps mod. To many bandits waiting out of the village for you so you better try before going out This is our website from which you buy legendary weapons, special clothes and items become a better ninja: this is our facebook fan page : the best we await your Post followed by 2291924 2 01/11/2017 13:32 level 1 : New Miner DenisTM No delay 1 - 15 of 15 Naruto Shinobi Striker One Piece | Adventures At Sea Boruto Chosen Destiny | Epsilon Boruto Destiny Chosen | Epsilon Boruto / Naruto Generations [1.16.3] Naruto Legacy [1.16.3] Naruto Legacy Naruto: ShinobiWorldMC Ninja Nations | Naruto Server PvP & RP for 1.14.4 Naruto Unleashed Reborn (NUR) Epic!
