## Stones to abbigale summary

From Life of Onion Stones to Abbigale, the original coverStones to Abbigale, or STA, is Greg's first published novel. It was released in early 2015 and is available on Amazon, Google Play and iTunes. Greg originally appeared as a coming-of-age novel, but several critics complained that the protagonist didn't seem to grow up or change by the end of the novel. Greg changed to appear as a contemporary romance novel by the summer of 2015. Plot Stones Abbigale is about a teenage boy named James (Greg's middle name). James falls in love with a troubled girl named Abbi, and they face many tragedies and difficulties together. On October 4, 2014, Greg announced on Twitter that he had written a book and had been sitting on his desk for months. He said he still had to do it, and he's going to joke that he'll be out in 10 years. (New Year's) The next mention of the book was published on 18 December 2014. Greg announced on Twitter that he had free time and was going to be working on his book. Release date of December 31, 2014. (Source) On November 30, 2014, Greg's last mention of the book was. He announced on Twitter that he had finished editing the book for the first time and would need two more edits before publishing. (Source) Released the book via Amazon on March 29, 2015 as a self-published kindle ebook. He is listed on Amazon as the author, publisher, and editor. He also called Lainey an editor. He first announced on Twitter that he would not link to the book or reveal his name. He says this was because he was too scared, despite the history of publishing literature on the Internet. (New Year's) Promotion Promoting the hardcopy copy of his book, Greg can post pictures of fans that bought the book to Twitter and Tumblr. At first there were pictures of the book fans posted, eventually it became selfies with fans holding the book or reading the book. He continued to retweet the images for months. Description Modify Some of the first Amazon reviews leaking in the first couple of days complained that the Amazon book description gave way too much to the site and had a shutdown. Greg re-posted such an opinion on Tumblr on March 30. He complained that my reviewer had left me with negative reviews, but he didn't even read the book. (New Year's) Soon after, Greg changed the description of the book so he wouldn't tell the story at all. It shows the story is not purely fiction, but loosely based on its own life. Original description James is an analytical teenager who has yet to really understand love until he starts talking to a girl named Abbi. Abbi has a history of the same age and complexity, which James learns more about as their relationship progresses. The two go through a number of challenges together, much more traumatic and difficult than most people experience in a lifetime. James is about to find himself defending Abbi both verbally and physically. The depth He feels like he's been tested several times, but James remains strong always standing with Abbi, all of it. New description I want to direct, my name is Greg. I'm selling Online Onision. This book consists of events that took place in my own life and mixed with fiction from James's fictional life. James is essentially a better version of myself. His home, his school and his life all look like my age. People James analyzes and is surrounded not so much unlike what he knew as well. I've experienced a lot of the loss of James however, the happier moments are more often than not even mine. I'd like to share my story without merely being fiction. I simply felt this approach would make for a much better book. Stones To Abbigale is not a book I wrote, it's a piece of who I am. Cover changes Greg holds up Stones at Abbigale v2. On March 31, 2015, Greg posted a picture on Twitter of him wearing a blood-soaked white dress ( (Spoiler)) of the dress his character Seth wore to turn Lakewood high school up. ((Spoiler end)) He revealed that he just got ready for a photo shoot for the new cover of his book. (New Year's) That night, he revealed the new cover of Stones To Abbigale, which also became the cover of the book's hard copy. The new front was very similar to the original, white, traces of blood and bloody words. The back continued with a blood-soaked cloth background, but also had Greg dressed as Seth holding a gun. His head was cut off at the top of the page. There were some complaints on the front page. One was that the text was hard to read. The other was that he was too similar to the book cover of David Moody's Hater series. On April 13, 2015, Greg changed the cover to Stones to Abbigale for the second time. This time on the cover, Taylor dressed as Abbi. Taylor, like Greg, doesn't show his face on this cover. Greg only changed the beginning this time, keeping the back of the book with Seth and the blood. Greg claims the second cover was altered

because the previous cover was too bloody. (Source) By July 2015, Greg had changed the back cover to match the new cover, depicting Taylor's back to get rid of the Seth pictures. Price changes When the book was published as an ebook on Amazon, it was priced at 5.99 USD. When the print release, Greg priced it at \$9.99. He finally sold it on iTunes as an ebook for \$9.99 and finally raised the ebook price on Amazon to \$9.99 as well. When it was released on Google Play, it was priced at \$2.99. On August 6, 2015, Greg says in a video that Amazon contacted him because they weren't happy that his ebook had a lower-priced option on Google Play. He says instead of raising Google's price, he lowered Amazon's price to \$2.51, as well as lowering the price of iTunes to \$2.99. (Source) The decision to do so was, promote sales in two days a day From pre-ordering that second book, that's why I hate you going live. Greg repeatedly stated that he didn't write the book for money. (New Year's) In fact, when the book was originally published, it often commented on poor sales. (New Year's) Apparently, over time, the book has become more popular among fans. Book Feedback Stones To Abbigale received very mixed reviews, although the common complaint from fans and critics of the book was the constant grammatical errors. Some readers loved the book, some go as far as to say that it was the best book I've ever read. Others really didn't like the book. Common complaints among negative visitors, apart from grammar, include advanced characters, unlikable protagonists and characters that just seem to just get over a series of tragic and horribly violent events. Overall, there were more positive reviews than negative reviews on Amazon. Stones To Abbigale maintains around 3 1/2 out of 5 star reviews on Amazon and high ratings on iTunes. Response to negative reviews greg proves Seth is an interesting character. Greg would re-post some Amazon reviews on social media. He would say that negative reviews were made by people who had not read the whole book and thanked more positive reviews. He will also re-tweet any positive feedback on Twitter about the book. Greg stated that he thought people were leaving negative reviews because they didn't like him, and not because there was something wrong with the book. He believes the reviews of the book would have been better if he had not put his name on it. (Source) On March 31, 2015, Greg uploaded Why Are People Such Jerks Online to his Speaks channel? video. At the beginning of the video, it shows a star rating from Amazon. He starts by showing how he tells negative reviewers to fuck themselves by not being useful in rating the review. He accuses the critic of not reading his book because they called his characters boring. It proves that the characters are not boring in showing off their Seth costume. The recentset stated: the plot can be summed up as lamenting teen anxiety. Greg says if they really read the book, they'd know how wrong they are. (Source) Facebook's contradictions with many Facebook commenters reading Greg's status at stones to abbigale were not satisfied with what some declared immature or hypocritical behavior on Greg's part. They thought Greg had shown that he couldn't make up for the criticism. Others pointed out that Greg said he had not read a book in 14 years, except for Stones To Abbigale. (New Year's) Some were also not impressed when Greg pointed out that it was the best book some readers had ever read. (New Year's) For a while, Greg's Facebook was relatively untouched by Greg's censorship, possibly because it was different at the time. media platforms. When Greg noticed the comments aimed at criticizing his reaction to the negative negative blocking and erasing. He then posted many rants about how useless Facebook commenters are and how they don't care about hate. (New Year's) Greg has lost a number of fans throughout the process of calling out Amazon visitors and Facebook commenters. Some people thought Greg was a hypocrite because he criticized a lot of people on his channels, but he didn't seem to be able to maturely criticize his own work. Inspiration right after releasing the 3rd cover of the STA, Greg was asked on his forums how much STA actually happened to Greg. (New Year's) He replied: 1. I knew a girl named Abbi. 2. I wrote him that letter. 3. I had an abusive friend (at least verbally). 4. I lost my best friend in high school (technically after all). He's actually basically the only friend of mine with the most HR... Just like the character in the book. 5. I didn't get beaten up in high school, that whole scenario was extremely close to what happened to me, I just had a land quake when I was in the nurses office... I thought I'd throw readers off if I had to... the reality in this case was too much. 6. I had a teacher and counselor who admired me in high school. My counselor and my English teacher were also very supportive. Ms. Robertson was originally written to be like my real counselor, but later I turned her into someone completely different in the book. 7. My mom didn't date some men when I was in high school. 8. My sister had boy problems, just like I wrote. 9. The room James lived in was the same as mine, although I didn't describe it as too much. The home where he lived was the same. 10. I was dealing with someone in high school like James put in Jason. 11. I actually didn't know a guy who sat next to me who peed in a bottle, who was socially flawed as the character of James's art class. 12. I had a principal at the school who acted like Principal Leeman... It was all mine in high school. I had a few problems at school and ran into the Leeman character a bit. 13. I read dramatic letters from my girlfriends in high school and, despite their mistakes, accepted them... The only thing I haven't forgiven is being cheated on, which, as you know, Abbi didn't cheat on James, but in real life, they cheated on me. 14. I have had to deal with people who sexually harass my girlfriends. 15th I skate to school. 16. Many events occurred behind that church that happened in some form to me... some more intense. ... I could go on, but he thinks you mean... James is a better version of myself than I described earlier. On August 5, 2015, Greg told viewers to mention Jurassic Park's iTunes reviews of Stones To Abbigale. This might encourage reviews of your book on iTunes because at the time there were only three reviews. A couple left silly dinosaur reviews related to the STA Amazon site. Greg began to promote this behavior by tweeting images and praising users that left his reviews. The next day, in a video, he said he wanted to prove how flawed Amazon's review system was and challenged his fans to spam STA Amazon's opinion of dinosaurs. It also dictated a long review of whether sta warmer than 50 Shades of Grey for fans to post on Amazon. This has resulted in hundreds of five-star spam reviews on Amazon and Stones To Abbigale star rank to go up to 4 full stars. (New Year's) This may be a way to get your attention in his book the day before the second book, that's why I hate you, went up for pre-order. pre-order.
