Downloadable PDFs by Scarborough Fair: Tune Line, Chords and Complete Lyrics: Scarborough Fair in Dm (key from the LCM book) Scarborough Fair Am (our key) Scarborough Fair Em (Simon and Garfunkel's Key) One of the highlights of my summer's Big Fat Music Party was the family of four who sang and played Scarborough Fair. Our interest in this song was sparked by an arrangement of it by Wild in the son of LCM's grade 1 piano book. It's a nice arrangement that sounds great as a solo piano piece, but I soon found I wanted to know the bones of the music and understand it, so I was quick on the printed page, looking at the string structure under the melody, singing the words and making our own arrangements. As with a lot of folksongs, the key is not really minor or major, it is modal. It's in Dorian mode. The ladder has a minor 3rd, a 6th major and a 7th minor, which, when you're starting on D, works like all white notes. Dorian mode is a large scale to encourage students to play around. I usually play a jazz waltz like - and they can freely play any white notes on top of this. It's great because they can't hit the wrong note, so they're free to and let their ears guide them. We do a little trading phrases too, and I just keep the accompaniment going into my left hand. We've explored how you can harmonize the song with block chords or broken in your left hand. The daughter of the family who developed a love to sing lately has entered the act and I transposed it from D to Un Dorian, which is a little tastier to sing. Now we could experiment with A Dorian, who has a black note, F#, on major 6. Because this is Dorian, rather than minor, you have a major D string in harmony rather than D minor, because of this sharp6a (F#) in the scale. It gives him that wonderful old-world feel, as these popular songs are from a time before the major and minor way of taking off. The father is learning guitar, so he accompanied it with a beautiful um cha cha strum. Notice the irregular bar structure. Popular songs often have this fluidity about them, as they would probably be sung by an unaccompanied singer. By the way, it's not the only way to harmonize this. It's the one that suited us best then. There are so many options you could choose, just experiment and find which chords you like the most. So at the party, at the piano I had mom on broken chords in bass and son on tone, dad accompanying the guitar and daughter singing. I liked the way the son kept something he liked from that initial arrangement; an echo of the last sentence that plays slowly, starting with the singer's last word. I had all the other players stop at the last word, so the echo phrase mined itself over the sound in the final chord. And he milked it well. There's nothing like a playful ending to captivate the audience and leave them with a good memory of the song! Now, this lyrics was very interesting. I grew up with the Simon and Garfunkel version, which is beautiful ethereal, has an anti-war poem by Simon woven in as a counter melody, five verses and does not seem to make a lot of sense. A quick journey to Wikipedia showed me older versions, with many more verses, and the piece being a dialogue between a man and a female singer, where basically he says he can be his girlfriend, if she performs a series of impossible tasks, and she returns with a rather neat comeback! The male side: Are you going to Scarborough Fair? Parsley, sage, rosemary and thyme; Remember me for the one who lives there, because it was a true love of mine. Tell him to make me a cambric shirt, parsley, sage, rosemary, and thyme; Without any seam or needle, then she will be a true love of mine. Tell him to wash it in good yonder, parsley, sage, rosemary, and thyme; Where water or rain has never fallen, and she will be a true lover of mine. Tell him to dry it yonder thorns, parsley, sage, rosemary, and thyme; Who hasn't worn flowers since Adam was born, then she'll be a real lover of mine. My. part: Now he asked me three questions, Parsley, sage, rosemary, and thyme; I hope you will answer as much for me before I'm a true lover of mine. Tell him to buy me an acre of earth, parsley, sage, rosemary and thyme; Between the salt water and the sand of the sea, then he will be a true lover of mine. Tell him to throw it with a corn of ram, parsley, sage, rosemary, and thyme; And he looked all over with a pepper, and he's going to be a real lover of mine. Tell it not to be made with a sickle of skin, parsley, sage, rosemary, and thyme; And tie him up with a peacock feather, and he'll be a true lover of mine. Tell him to beat him on the wall over there, parsley, sage, rosemary, and thyme, and never let a corn out of him fall, then he will be a true lover of mine. When he finished his work. Parsley, sage, rosemary and thyme: Oh, tell him to come and he'll have his shirt, and he'll be a true lover of mine. And finally, as a Dylan fan of the old, I can't mention Scarborough Fair without mentioning evenly, if not more beautifully, Girl from the North Country, one of the songs Bob Dylan wrote, which was directly inspired by a popular song, using some of the form and lyrics to create something with a feel that is new and old all at the same time. The OriginScarborough Fair was made famous by Simon and Garfunkel. But in fact, Paul Simon learned the song from the English singer and guitarist, Martin Carthy and anyway, the song itself is thought of the date of the Middle Ages. You will find an explanation of the meaning of the herb mentioned in the song, along with an extensive set of lyrics, here. Scarborough Fair is relatively easy to play. It only has four chords - I have, Em, D and G. It works nicely if you play it in 6/8 time, using your thumb to choose the bass note and fingers to choose the notes of each remaining string. Experiment with the key. Putting a capo to fret 5, like me, places the song in the key to Re minor. Try moving the capo up and down the fretboard to transpose it up or down until you find the key that works for your voice.
