## Milk cookie clicker

In: Message 1.0 Updates, Gameplay Share Simple Milk Milk is a valuable resource that opens the kitten series of updates that significantly increase the rate of cookie output in direct correlation with the amount of milk the player has. Milk is obtained by unlocking normal (not shadow) Achievements of 4% milk per achievement. According to version 2.031, the total number of normal achievements that are taken into account in relation to milk is 518, and the maximum allowable amount of milk is 2.072%. Milk is represented by a wave-animated overlay at the bottom of the Big Cookie section. The overlay gradually gains height as the percentage of milk increases. Milk changes color and name when the milk percentage reaches a new hundred, although it does not affect the production of cookies. New types of milk and kitten updates have been introduced with new advances and subsequent higher possible milk levels. Appearance, as the player gets more and more (not shade) achievements, Milk will change its appearance and taste. The current taste of milk and rank are shown at the top of the Achievements section in statistics. Icon Milk - Achievements Rank Taste 0%-96% 0-24 I (Plain) Milk 100%-196% 25-49 II Chocolate Milk 200%-296% 50-74 III Raspberry Milk 300%-300 %396% 75-99 IV Orange milk 400%-496% 100-124 V Caramel milk 500%-596% 125-149 VI Banana milk 600%-696% 150-174 VII Lime Milk 700%-796% 175-199 VIII Blueberry Milk 800%-896% 200-224 IX Strawberry Milk 900%-996% 22 5-249 X Vanilla Milk 1000%-1096% 250-274 XI Honey Milk 1100%-1196% 275-299 XII Coffee Milk 1200%-1296% 300-324 XIII Tea (spot) Milk (note 1) 1300%-1396% 325-349 XIV Coconut milk 1400%-1496% 350-374 XV Cherry Milk 1500%-1596% 375-399 XVI Spicy Milk 1600%-1696% 400-1 424 XVII Maple Milk1700%-1796% 425-449 XVIII Mint Milk 1800%-1896% 450-474 XIX Lycoris Milk 1800%-1896% 450-474 19th Lycoris Milk 1800%-1896% 450-474 19 Likoris Milk 1800%-1896%1900%-- 1996% 475-499 XX XX Pink Milk 2000%-2,072% 500-518 XXI Dragonfruit Milk On The Statistics Screen, it's called tea with a slick of milk but in the milk selector switch, it's just Tea Milk. After buying a Classic Dairy Choice Celestial Update, you are free to choose the taste of milk using the Milk Selector switch. However, this is only a cosmetic change, and does not affect the information shown in the statistics menu. In addition, there are 9 more types of milk added by buying a fancy milk selection celestial update: zebra Milk, Cosmic Milk, Flaming Milk, Sangwin Milk, Midas Milk, Midnight Milk, Green Inferno Milk, Frosty Milk and Soy Milk. These new types of milk are unique in the representation not only of new colors, but also of new models of milk. Fancy Dairy Kittens Choice There are 13 regular kitten upgrades, kitten-like status upgrades, and a celestial update sharing the same type of milk based on the effect. Icon Unlock Condition Base Price Description Milk Factor ID Kitten Assistants 13 Achievements (52% Milk) 9 9 You get more CpS more milk you have. meow, can I help you 0.1 31 Kitten Workers 25 Achievements (100% Milk) 9 billion You get more CpS more milk you have . Ready to accomplish everything and whoever you want, Sir .115 613 Fortune #103 Random State from News Ticker 86400 x CpS (Max: 7,778 tredecillion) You get more CpS more milk you have. Don't believe superstitions; All the cats are good luck. 0.05 641 Kitten Angels (Sky Update) Dominions purchased 9000 You get more CpS more milk you have . All cats go to heaven. 0.1 291 Kitten Wage (Sky Update) Kitten Angels has purchased 9 billion thanks to smart accounting, it actually makes the kitten upgrade 10% cheaper . Cats can have a small salary. Cats are expert traders and have a keen sense of bargaining, especially in the case of cash. N/A 646 Every milk kitten renewal factor multiplied by Milk, provides an increase in CpS production. These effects stack multiplied. For example, say you have kitten assistants, kitten engineers, and 160% milk (40 achievements). Kitty assistants multiply production by 1 1 1.6 x 0.1 and 1.16, and Kitten Engineers multiplies production by 1 and 1.6 0.15 and 1.24. Taken together, these two multipliers will get you a total production multiplier of 1.16 and 1.24 and 1.4384. You can check out the overall kitten multiplier at the top of the Achievements section in the stats. Modifiers there are modifiers that can increase the percentage of milk before the kitten upgrade is calculated. Modifier Milk Multiplier Santa Update: Santa's Milk and Cookies 1.05 Auras: Reality Bending / Breath of Milk / Both 1,005 / 1.05 / 1,055 Mokalsium, Mother spirit: Diamond / Ruby / Jade 1.1 / 1.05 / 1.03 Garden plants (mature, clay) 1'00.0025W - Whiskerbloom This multipliers to the percentage of milk and stack each other multiplied. For example, if you have 160% milk, effective milk will be 160% and 1.05 and 168% with one of the 1.05 modifiers (Santa Update, Breath of Milk Aura, or Mokalsium in the Ruby Slot). With three modifiers 1.05, effective milk will be 160% and 1.05^3 and 185.22%. Total Milk-Free Santa Claus Milk and Cookies with Santa Claus Milk and Mokalsium Cookies: N/Jade Ruby Diamond N / Jade Ruby Diamond No Dragon Aura 1 1.03 1.05 1.1 1.05 1.0815 1.1025 1.1025 1 1.1025 1.155 Reality Bend 1.005 1.03515 1.05525 1.1055 1.05525 1.0869075 1.1080125 11.16077 5 Milk Breath 1.05 1.0815 1.1025 1.155 1.1025 1.135575 1.157625 1.21275 Both Auras 1.1.1. 055 1.08665 1.10775 1.1605 1.10775 1.1409825 1.1631375 1.218525 The effect of garden plants on milk percentage is much more complex. Whiskerbloom power may be increased by Nursetulip, but Nursetulip itself will reduce the overall CpS. For a detailed discussion, the following examples are given. All examples suggest: All 439 achievements received, 1756% base milk% (maximum as v2.021) All kittens owned (including Fortune #103) All 3 non-planting modifiers owned by Aura: Breath of Milk only Mokalsium: Diamond Slot All Plants Mature Clay Soil. Example 1 Full plot 6x6 of 36 Whiskerblooms has a modifier, fW, of 1.0025 and 36 1.09, and combining all three other non-garden multipliers will give an effective percentage of milk: as a result the kitten multiplier will be: What is approximately 3,919,378,731. Example 2 To achieve the highest possible effective percentage of milk, The garden should be planted as follows: W: Whiskerbloom, n: Nursetulip W W N W N W n Each Nursetulip (in clay) enhances the effects of adjacent plants at 15/4 The overall Whiskerbloom modifier will be: The maximum effective milk percentage that can be achieved: as a result the kitten multiplier will be: This is approximately 5,809,133,949. However, single Nursetulips in clay also reduce the total CpS by 1/40. In this mechanism, they reduce CpS several times: Which means that the total production multiplier is only fN and K 2,976,619,930. So, despite the presence of the kitten's multiplier as possible, this is much less effective because of the Nursetulip factor. Example 3 To compensate for the debuff Nursetulip, best garden arrangement: W: Whiskerbloom, n: Nursetulip W N W Nursetulip Ratio will be: With received a total production multiplier of fN and K 4,029,156,227, which is 1.3536 times more than the previous example, and 2.8% higher than the simple location of 36 Whiskerblo. The graphs of the top image shows multipliers for each kitten upgrade, based on the percentage of milk. In each group of 3 rows, the bottom line is the base multiplier, the middle line multiplier is either with Santa's milk and cookies or breath of milk, and the top line is the multiplier with both. In the endgame, each of the last 4 kittens renews triple production. The bottom image shows the multiplier for the dragon's aura Breath of Milk, based on the percentage of milk and which the kitten upgrades are active. In each group of 4 lines grouped by color, the bottom line is the base multiplier, the next line multiplier with Santa Claus milk and cookies, the next line multiplier with kitten angels, and the top line multiplier with both. Lines for each kitten update suggest that all previous kitten updates are active as well. In addition, since the breath of Milk and Milk of Santa Claus and cookies have the same effects, their values on the graph can be replaced. Dunking Cookie Cookie-dunker Achievement is obtained by accumulating enough milk and adjusting the browser window in such a way that Big Cookie is superimposed on the milk graphic on a significant area. This can be done by increasing in a lot or reducing the height of the page, such as by clicking F12. Toys Home article: Toys Milk Toys are interactive, with physics-enabled objects that can appear in the left panel when Cookie Clicker loads. Toys have 1/10,000 (0.01%) chance to appear when the game is downloaded, making them one of the rarest cases in Cookie Clicker. They don't do anything to change the gameplay.
