## Vintage avon price guide

For more than 80 years Avon has been selling personal care products and beauty products, jewelry and other exquisite items, often packing its products in collectible glassware. The packaging of glassware and the products themselves are very popular with collectors, and there are several sources that specialize in these collectibles. Whether you're interested in glassware or vintage Avon products, you'll find a number of these items in local antique shops and flea markets. However, if you are looking for the best choice, the Internet is your best trading resource. Related articles Identify antique glassware Antique oil lamps Pictures Antique chairs Glass Menegair Glass Menegei specializes in glass container Avon of all types and eras. Prices range from \$10 to \$70, depending on the rarity of glassware and the era in which it was made. There are many items from the 1960s to the 1980s FindAvon.com specialising in a variety of Avon collectible glassware and original products, FindAvon.com has many great items to choose from. You will find dolls, Cape Cod ruby glass, figurines, and collectible plates, as well as everything made by Avon. Prices are affordable, and most items cost less than \$30. Vintage treasures from A to I Vintage Treasures from A to I has a more limited selection of Avon collectibles, but it's still worth checking the quality of the items. There are a number of glassware and China collectibles as well as Avon beauty products in mint condition and with their original packaging. Prices vary depending on the item, but most pieces are less than \$60. Avon Collectible Shop Offering everything from Christmas decorations to Avon jewelry, Avon Collectible Shop is another great trading resource. You'll find items priced at up to six dollars, as well as more valuable pieces to add to your Avon collection. eBay Perhaps one of the best sources for Avon glassware and collectibles is eBay. With thousands of vintage and antique Avon items, you'll have to be specific about what you want to find. However, you will have great luck finding items that can be more challenging to find in other stores. Popular Avon Items for Collectors In the mid-1960s Avon began producing novelty perfume containers. The first glass car decanter, unveiled in 1968, was an instant hit and is still one of the most popular collectibles today. Collectors loved the novelties, and Avon began creating more collectibles to charm his fans. Most collectibles are not particularly valuable; their worth in the joy they give to those who collect them. Each collector is different and will have a favorite item to collect. Christmas decorations and several Avon perfume containers are the most popular items to collect. Bells Christmas bell, probably from the most popular items for people collecting Avon Avon Every year Avon produces a unique bell with a festive theme, such as snowflakes, holly or crowns. Avon has made many other collectible bells, including the following: Precious Moments Metal Carousel Bells Ruby Red Cape Cod Glass Mistress Bell Collectible Plates Christmas on Avon Farm Collectible Plate Avon's first Christmas plate was released in 1973 and is entitled Christmas on the farm. It has an egg-blue robin strip outside, and the center is a primitive illustration of the farm. Like every Avon collectible, the date is written on the group. Avon has released a new Christmas plate every year ever since and along the way has added other collectible and memorable plates. The room was quite big and comfortable. Even the first collectible plate produced can be purchased for \$50.00. Check the plates for cracks, repairs, cod and faded paint. Try getting the ones that come with the original box intact as they are more valuable than the plates without the original box. Avon collectible dolls produce collectible dolls in many different themes. Some of the dolls that Avon made include the following: Cinderella Rapunzel American Heir barbie First Day School Figurines Avon figurines are preferred by many collectors. Mrs. Alb's figurines are particularly hard to find because they are awards presented to Avon representatives and not released to the general public. Other favourites are Scarlett O'Hara and the annual Christmas statuettes. Made in porcelain, petals and ceramics, these figurines come in a number of motifs: Birds of Animals Moviegoer Vertep Lionel trains Avon ornaments releasing collectible Christmas decorations every year in some of the following popular themes: First Christmas Together Baby's First Precious Moments Pewter Decoration Perfume Bottles Dutch People tend to collect special fragrance bottles such as glass cars and animals. Collectors also enjoy the aroma of the bottle, which are unique because the fragrance has been available for a limited time. Particularly popular are figurable perfume bottles, as well as a car created in 1968. Other hilarious bottles and glassware items include the following: Pink and Pretty Miss Kitten Decanter Sweet Honesty Christmas Stocking Cotillion American Bell To Wild Rose Hobnail Bell Pretty Peach Soda Decanter Plush Products Avon has created a line of plush toys, which are very collectible including these special items: 1985 Carmichel Cat 1991 Kangaroo 2000 Radio Rabbit 2000 Lion 2002 Anniversary Teddy Bear Stein You don't have to collect dolls and perfume bottles To enjoy Avon Collectibles. Tank mugs have become very popular items among male collectors. Themes for steins, tank and mug include these popular topics: Baseball Cowboy motorcycle ships Avon Avon Tips While Avon collectibles are generally available, it's still a good idea to know as much as you can about this market. So you can avoid buying counterfeits or spending your money on a product that isn't priced competitively. Make sure that the authentic element of all collectible products that have been developed by Avon will carry the Avon fine collectable logo. Sometimes the company collaborates with other brands such as Cherished Teddies or Precious Moments. These items will not be marked with the Avon logo, even though they were created exclusively for Avon. Typically, if they are in the original packaging, the element will have a wording that says something to the effect exclusively created for Avon. If the item marked with the Avon logo doesn't find out, think twice about buying. Look for items in the original packaging Like many collectibles, the original package can significantly increase the cost of avon collectibles. These items command a higher price on the secondary market if the collector holds the box they came into. Keep in mind that items in the original packaging with a certificate of authenticity, if it was, would cost much more than collectibles that lost their boxes. Understand the value of your piece Before you buy or sell a piece of Avon glassware or other collectible item, you should gain a thorough understanding of the value. While the original packaging and condition of the piece are important, the biggest factor driving the price of these items is demand. If no one collects your item, then it's not worth as much. To find out the value of your piece, inspect the products at various Avon stores, then look at the recently sold items on eBay. You will find out if these pieces are sold and the amount that collectors paid for them. A particularly useful book on this topic is the collection encyclopedia of Bad Siastina Avon, which includes information about and values for a number of collectible works. You can also talk to an antique appraiser online or in person for a better sense of the value of the piece. National Avon Collectors Association If you would like to know more about avon collectibles, the National Avon Collectors Association is a great place to start. This organization has chapters throughout the United States as well as abroad. Sections often hold monthly meetings, and a year-end convention is held for all members. Unfortunately, the National Avon Collectors Association has no online presence. The best way to contact this organization is by writing to the following address: National Collectors Association Avon P.O. Box 7006 Kansas City, MO 64113 You can also contact other collectors through ICollectAvon and Avon Collectors. Avon's many product collection and packaging capabilities offer plenty of collection opportunities, since most items are available to the average collector. Research the type of collectible that interests you and be in search of your next big piece. As a former dealer at Avon Collectibles, I receive hundreds (now thousands around 2018) of emails relating to the pricing and sale of Avon Collections. Often the collection is peculiar, or the owner moves to smaller quarters, and you need to understate their collection. While we do not claim a lack of expertise on this issue, we are trying to help with the main steps related to the pricing and sale of the collection. \* Find the value of your collectibles \* Find the best way to sell them. The value of collectibles can vary in general, and the value depends heavily on the popularity of the elements and its condition. Other factors influencing the cost will be where it is sold, such as online shopping, store collectibles, auction, etc. geographical area, current popularity, and supply and demand. You can explore value yourself - using the online and offline sources listed in Avon Collectibles Pricing Guides, and looking into collectible stores, flea markets, etc. to get a range of prices in different locations. If your collectible is at least 75 years old, you may need to enlist the services of the appraiser. Assessments should be made in person by someone with adequate authority in your collection area. While there are several online valuation services, I feel accurate assessment requires seeing, feeling and touching. Be sure to let the appraiser know what type of estimates you are looking for - retail market value, insurance value, etc. For subjects less than 75 years old, the valuation is more likely to cost much more than your item is worth - and a good price guide, perhaps supplemented by some additional research into local pricing, should be quite sufficient. Market values are the starting point, eventually, however, your item is worth what you can get for it if you sell it. If you keep it, it's worth any value you want to place on it. After doing research on the price of your collectibles, you can sell them yourself. If you want to sell in retail, you can become a dealer, advertise, set up a local store or rent a place in the store. You can also find a dealer who will sell your goods on cargo (they take a percentage to cover the costs of how each item sells). Other options include using ads or selling at auction. Or, you can sell to a dealer. Keep in mind that in addition to the amount the dealer pays you, they also have overheads and should also allow some space to make a profit. Selling a dealer saves you from the time and expense to become a dealer yourself, expect the wholesale price the dealer pays to reflect this as well as the one that it may be a while before items are sold. A good starting point for finding dealer dealers May be interested in your collection is your local (or online) yellow pages, look under collectibles and antique dealers. In my experience, in almost every case you have to deal with a local dealer in a collection sale, they will have to inspect the items. You should also know your request price in advance. For large collections, especially with a wide range of items, selling real estate can make sense. Book recommendations: Encyclopedia of Avon collector Bud Hastin: Avon and California Perfume Company Products-1886 to the present (Paperback)-18th edition Review - Best Book about Avon Collecting to date. Bud Hastin has 10. Bud Hastin spent 30 years collecting information on all areas of avon collecting. He has the only updated book on the market.
