This novel is written by Malinda Lo. It's a great story about how life doesn't always work the way we want it to, but when we're ready, we can still make it a great life. It's a good compelling story, inclusive, and easy to read. This is the perfect holiday novel, you can pick up and get right back to the story. The novel Ash is an enjoyable story that moves forward at a good pace. It's not too fast, but at a pace that keeps the reader engaged in waiting to discover the result. It's a satisfying ending that's a little predictable, but binds all the loose ends. Some male characters are a little too good to be true, but that doesn't ruin any part of the story. The author switches to two time effortlessly and easily, which doesn't always happen in such books. Each storyline had a wealth that was only reinforced by comparison and contrast with another. The book certainly brought all the feels, and elements of all the characters. Throughout the novel, the story is smooth and generally moves along well. At the end of the day, if you are looking for something you have read similar to it before and do not mind another, then it will satisfy you. If you're looking for something more than just a mean read that you want to deal with, then it's also something to enjoy.
