If you need to contact customer service or if there is anything you would like to see at Fantasy Grounds that is not currently part of the software or if there is something you think would improve a rules then, add your idea to the customer service portal March 25, 2020, 19:07 #3 I tried to drag bolt's shocking action from the monster to the item, but it wouldn't be stick. March 25, 2020, 19:13 #4 March 25, 2020, 19:24 #5 Originally Published by LordEntrails Drag will not work (unseen object type), edit (you may have to copy it before I can unlock it), select text. copy a paste > ok, I did. I did a test PC and gave it the item, but the action is not shown on the sheet. Are you supposed to? March 25, 2020, 7:26 p.#6 No. items do not create effects/actions. (unless you're using the 5E Item Effect extension, which I don't know if it works at Unit ATM) You will need to create the action yourself. Or, if spell creates the action, give the PC then edit the action you create to alter it to reflect it coming from the item. March 25, 2020, 7:43 #7 appreciate all the help so far (I'm a noob). I installed this 5e Advanced Effects extension because it looked cool. Anyway, it can help me convert Ranged Spell Attack: +4 to hit (with advantage on the attack roll if the goal is to wear armor made of metal), range 60 feet., a target. Hit: 10 (3d6) lightning damage. what should seem to become an action? I'm currently reading the wiki, but I think this example would really help. March 25, 2020, 19:51 #8 what you have is fine. You will need to do the Advantage bit manually, as FG cannot tell what armor the target is using. (In other words, press the ADV button when doing the strike roll.) If you need to contact customer service or if there is something you would like to see in Fantasy Grounds that is not currently part of the software or if there is anything you think would improve a rules then add your idea to the customer service portal March 25, 2020, 7:57 p.m. #9 Originally published by Zacchaeus What's Right. In the Properties of Armor section? Or do I use the extension and paste this text into Advanced Effects? EDIT: Oh, am I supposed to add a new Power to character sheet with this text?
