Sweet and awesome games

Sony has always committed to maintaining the gaming console for many years, stretching the life span of playstation 2 and PlayStation 3 for more than six years before introducing a successor. Now, the PlayStation4 is in its sixth year as the lead Sony console, and with a new iteration of hardware looming, the PS4 has really hit its stride. In the past few years, Sony has launched new models such as the PS4 Pro and PS4 Slim, not to mention the release of a slew of awesome games – and prices have fallen dramatically. If you're thinking of buying a PS4, or if you recently got one of the PlayStation 4 bundles available right now, we've collected some must-have video games system. The best part? Each of these top-rated game titles comes in at just \$20 or less. Looking a lot for PlayStation 4 this holiday? There's a lot that was because retailers are deeply discounting the PS4 console this Cyber Monday. Best Cheap PS4 Games At this price, these games may not be recent releases like Red Dead Redemption 2, Assassin's Creed: Odyssey, or Spider-Man, but they're all affordable and fun. You should also check out PlayStation Plus for free games and discounts you won't find on Xbox, and you could always hit up playstation store Black Ops 4, Red Dead Redemption, Titanfall, Uncharted, and other digital names. Continue to see more of the best PS4 game deals in October 2019.
Deus Ex: Humanity Divided - \$9
Yakuza 0 - \$10
Ratchet & Jingle - \$10
By Dawn - \$10
Resident Evil 7: Biohazard - \$14
Middle-Earth: Shadow War - \$15
Last Guardian - \$15
Fallout 4 - \$15
Last of us remastered - \$15
Street Fighter V: Arcade Edition-\$17
Bloodborne - \$17
Shadow of the Colossus - \$18
Okami HD - \$18
Doom - \$18
Detroit: Become Human - \$19
Final Fantasy XII : Astrological Age - \$19
Horizon : Zero Dawn Complete Edition - \$19
Abzu - \$20
Metal Gear Solid V: Definitive Experience-\$20
Rise of the Tomb Raider. 20 Year Celebration - \$20
Dark Souls III: Fire Fades - \$20
Detroit: Become Human - \$19
From Quantic Dream, The French developer behind award-winning names like Heavy Rain and The Two Souls, Comes detroit: Become Human. This interactive adventure could be just the best game yet from the Paris studio, thanks to its great world-building, powerful heroes and intuitive, accessible gameplay.
Detroit: Become Human recently went for about \$30 to \$40 from online but the price has now dropped to \$20 for Amazon and Walmart, making it probably the best PS4 game deal around right now.
Detroit: Become a Human
Resident Evil 7: Biohazard - \$14
After two successful Breakthroughs Games that slowly brought the series back to its survival horror roots, Resident Evil 7: Biohazard completes the circle, throwing you back into an abandoned mansion where you have to scavenge and use your mind to stay alive (this time from a first-person perspective, ditching a clunky third-person camera and embarrassing control of an earlier battle). As Ethan Winter, you struggle to survive against the deranged Baker family and a new humanoid enemy known as Molded as you explore and solve puzzles in a true Resident Evil way. If you want to play one of the best PS4 survival horror games to come out in recent years, then Resident Evil 7: Biohazard is now available for \$17 from Walmart.
Resident Evil 7: Biohazard Abzu – \$20
If you love relaxing adventure game titles like Journey and Rime on a PlayStation 4, then you owe it to yourself to experience Abzu, which is easily one of the most atmospheric and beautiful PS4 games ever made. Abzu will take you to a lovely underwater world filled with tens of thousands of fish and hundreds of real-life species from around the world, allowing you to explore the colorful ocean environment, from caverns and coral reefs to sunken ruins as you rebuild your entire life. It's all set to original music by Austin Wintory, the same composer behind the award-winning Journey soundtrack. Abzu's breathtaking world and unique atmospheric experience will keep you coming back again and again. Dive into the magical PS4 gaming world of Abzu for \$18 from Walmart and get ready to enjoy the unique underwater experience that no other PlayStation 4 or Xbox One game has to offer.
Abzu
Final Fantasy XII: Zodiac Age - \$19
Like Okami and Shadow of the Colossus, Final Fantasy XII is another PlayStation 2 classic that recently received a much deserved remaster on the PS4. Final Fantasy XII: The Zodiac Age brings this great JRPG to Sony's current gen console with an updated graphics, remastered sound, and some technical innovations set on modern hardware. Like Final Fantasy III and VII, Final Fantasy XII is one of the best commants in this long series, and it's the easiest one to recommend to gamers of all stripes. Even if you're usually not a fan of JRPGs (perhaps traditional turn-based battle systems don't appeal to you), a faster paced semi-real-time fight, a great story, and an excellent artistic direction for Final Fantasy XII: The Zodiac Age makes a must-play for any PS4 owner. It's cheap, including only \$15 from Walmart.
Final Fantasy XII: Zodiac Age
Deus Ex: Humanity Divided - \$9
Deus Ex is one of the most famous games ever made, and like the movie Blade Runner, it much of the defining vibe and aesthetic cyberpunk genre. Square Enix resurrected this franchise with the 2011 hit Human Revolution, and Deus Ex: Humanity Divided continues this prequel storyline. Agent Adam Jensen (now an Interpol employee) finds himself in Prague this time, and you have to use the full force of his skills, weapons and cyber improvements to get to the bottom of a terrorist conspiracy in a world that is increasingly biased against augmented people. Humanity's divided plot is not as engaging as the human revolution, given that this game is a middle wall, which is a trilogy, but this result improves upon the great no-work stealth action game of its predecessors. (Fortunately, rumors that Square Enix was dropping the series were wrong, although it has been a hiatus for a little while.)
Deus Ex: Humanity Divided is now on sale for \$11 from Amazon or \$13 from Walmart.
Deus Ex: Humanity Divided
Yakuza 0- \$10
Yakuza franchise gangster sims have been around since PlayStation 2, but despite a special following, it never quite broke up to huge mainstream success in the West – before Yakuza 0, that is. This sequel is set in the 1990s, before the events of the first Yakuza game, and playing as the hero of Kiryu, you beat up rival gangsters, claw your way up the ranks of Japan's criminal underworld, and chew on countless side missions and other additional activities. Thanks to its great gameplay, compelling characters, wacky sense of humor, and the sheer amount of stuff it has for you to do, Yakuza 0 became a smash hit and one of the best-rated installments in the series. Yakuza 0 is a great experience for fans of the franchise as well as gamers who are brand new to it, and for only \$20, there's never been a better time to become a gangster (in the virtual world, at least).
Horizon: Zero Dawn Complete Edition – \$19
Open-world games are a dime a dozen nowadays thanks to the meaty hardware of modern consoles and computers (which are almost bad), and Horizon: Zero Dawn is one of the best to come along in recent years. This breathtaking PS4 exclusive is based on a very unique premise, mixing post-apocalyptic setting and science fiction elements: With civilization destroyed, people have returned to almost Stone Age-style life and have to contend to survive the world teeming with dangerous animal-like mechanized horrors.
Horizon: Zero Dawn full edition contains the main game plus frozen wilds extension. It just dropped to \$20 from Walmart (or around \$19 with shipping from Amazon), making it now the perfect time to make time to move to one of the best PS4 exclusives – not to mention one of the best open world games – we've seen yet.
Metal Gear Solid V: The Definitive Experience - \$20
Hideo Kojima's famous series Espionage action games don't need an introduction, and Metal Gear Solid V finishes off the franchise with perhaps the most ambitious installment yet. If you haven't yet experienced this meaty name, then the ultimate experience gives you everything you need in one package: It includes Metal Gear Solid V: Ground Zeroes prequel missions and the main game, Phantom Pain, as well as all the DLC goodies. With two sprawling open cards for you to explore, a long single-player campaign, additional Side Ops and various multiplayer modes, Metal Gear Solid V: The Definitive Experience gives you a boatload of content to bite into. Now you can enjoy all of it for just \$20 from Amazon.
Metal Gear Solid V: The Definitive Experience
Shadow of Colossus – the \$18
Shadow of the Colossus is one of the most iconic titles we've ever seen, and if any video games can be seen as art, then that's it. It recently got a much needed remaster that brings this classic modern console, and there's no better time or better way to enjoy this gorgeous, sweeping adventure game in all its glory. For those unfamiliar, Shadow of the Colossus throws you, a young soldier, into a barren yet beautiful world where you have to hunt down titan beasts in an ill-fated Faustian bargain to save a loved one. The remastered version of Shadow of the Colossus just got a nice price drop to \$19 and you can currently get it from Walmart and Amazon. This is a great price for what is, hands down, one of the best PlayStation exclusives ever made.
Shadow colossus - \$18
Last Guardian - \$15
Last Guardian is the latest creation by Fumito Ueda, the lead designer behind the iconic PS2 classic Ico and Shadow of the Colossus. Fans of Ueda's previous work will be instantly familiar with the airy, time-worn aesthetic and exploration of the rich game from The Last Guardian. This PS4 game puts you in the role of a boy who wakes up stranded in a sprawling ancient complex and needs to work with a giant dog-like creature to find a way out. The Last Guardian is a beautiful and compelling adventure on the PS4, and now you can grab it cheaply as it is available for \$15 from Walmart.
Last Guardian – \$15
Walmart Middle-Earth: Shadow Of War – \$15
Based on Peter Jackson's sweeping cinematic interpretation of The Lord of the Rings, Middle-earth: Shadow Of War offers a deeper look at the dirty underbelly of J.R. Tolkien's fantasy universe. This sequel to Shadow Mordor continues the first game in a darker exploration of the world's Middle Earth, this time allowing you to build your Orc legion and make carving your kingdom and challenge Sauron's dominion to its ultimate duty. Grab your sword and prepare to do battle with the Dark Lord himself in Middle-Earth: The Shadow of War, now only \$18.50 from Target or \$20 from Walmart (and also available on Xbox One). If you are looking for one of the best PS4 gaming deals around, look no further.
Middle-Earth: Shadow Of War - \$15
Rise of the Tomb Raider: A 20-year celebration - \$20
Lara Croft is back and better than ever to rise from Tomb Raider, the PS4 game sequel hit 2013 reboot of the long-running franchise, which first made its mark on the original PlayStation. The new games have earned universal critical acclaim for their darker atmosphere, great graphics, great action-adventure gameplay, and solid stories that transformed Croft from a campy action hero into a relatable heroine. Rise of the Tomb Raider takes Lara's adventures to snowy Siberia, with the 20th Annual Celebration edition giving you DLC episodes released since its original launch. You can grab it now on the PS4 from Walmart for \$20 and start playing.
Rise of the Tomb Raider: 20 years of celebration – \$20
Okami HD – \$18
Okami is widely – and rightly - considered one of the best console games ever made. This unique Zelda-like adventure name plunges you into a gorgeous cell-shaded world based on feudal Japan, complete with creatures and dances straight from Japanese mythology. You control a mystical wolf named Shiranui – an expression of the sun goddess Amaterasu - which commands a wide range of magical weapons and abilities that you will use to liberate the earth in ancient darkness, which is once again rooted. Along the way, you meet a large cast of endearing and whimsical characters and ever stronger monsters as you level your abilities.
Okami HD is a pretty long PS4 game too, giving you a lot to chew on, and for only \$18 from Walmart, you're getting a lot for your money. If you've never experienced this classic, or if you just want to have another go-round widescreen HD, then now is your chance. It is also available on the Nintendo Switch if you want to use joy-con over the PS4 controller.
Okami HD –\$18
Fallout 4 - \$15
Fallout is one of the longest running franchises around, but it still somehow manages to exceed our expectations with every new release console. Fallout 4 is no exception, and its massive open world gives you complete freedom to fight and twist your way across the post-apocalyptic wasteland of an alternative universe where civilization has devastated the world of nuclear war. You emerge as a lone survivor of Vault 111, and you must use all the necessary means to survive and thrive in the radioactive ruins of the U.S. Adjust your character, join the factions, level your skills, and even build your base in Bethesda's epic follow-up to 2008's Fallout 3. Fallout 4 offers a true next-gen PS4 experience and can be yours for \$17 from Walmart or \$15 from target.
Vr version of Fallout 4 is also recently released if you have a PSVR headset and really want to dive through your PlayStation 4.
WalmartFallout 4 - \$15
Doom - \$18
The new Doom is a game that some people saw coming. Id Software and Bethesda had a big task ahead of them when they announced the reboot of the decades-old franchise that defines the entire genre. Expectations plummeted and, fortunately, Doom met and even exceeded expectations when it fell on consoles and was met with massive sales and universal critical acclaim. While 2004's Doom 3 was an awesome first-person console shooter, its slower gameplay and survival horror elements strayed a bit from the classic Doom formula. Id the new Doom takes the franchise right back to its roots, throwing a stranded space sea – you, the player – into a whirling maelstrom of slaughter and chaos as you battle only against the army of hell. You can enjoy the next gen graphics and pounding FPS action at Doom for \$17, and it's also available on Xbox One and Nintendo Switch. There is even a VR version of this PS4 game if you know where to look.
Doom - \$18
Ratchet & Rattles - \$10
Ratchet & Rattle, the latest entry in Sony's PlayStation long-running adventure series, is reimagining the franchise based on the 2016 movie of the same name. Although the film is not set in a world of fire, the PS4 game was executed with widespread critical approval and quickly became the best-selling Ratchet & Rattleszoa name to date. Ratchet & Jingle puts you back in control of the titular hero and his robotic sidekick. It offers an all-new game, next generation graphics, and cinematic cut-scenes, but the gameplay still has all the classic run-and-gun platforming action that fans of the series know and love. You can score this PS4 exclusive for \$15 and enjoy one of the best gaming deals around.
Ratchet & Gonach - \$10
The last of us Remastered - \$15
The last of us Remastered - \$15
The last of us was one of the PS3's top exclusive titles, winning hundreds of prizes for its excellent storytelling and cinematic gameplay. If you missed the original (or want to experience it again in the next gen glory), now is the time to pick up the remastered version of the PlayStation 4. The gritty story focuses on a man named Joel and a young girl named Ellie as two in a struggle to survive in the American wasteland after a devastating pandemic that has wiped out many residents. The last of us remastered features a graphically enhanced version of the original title, all DLC packages, and an all-new prequel story that sheds more light on Ellie's past. This award winning adventure game can be yours for \$18 from Walmart or \$19 from Amazon, making it one of the best cheap PS4 games on the market. From us last remastered – \$15
By Dawn – \$10
Need your survival horror itching scratched? By Dawn is another PlayStation 4 exclusive that is sure to please gamers with an appetite for terrific. This game takes place in the frozen mountains of Canada and for a group of teenagers during their ill-advised overnight stay in an old cabin (is this a prerequisite for sound familiar?). Teens fall under attack by a psychopath bent on murder, and the player has to make difficult choices when trying to escape and survive until sunrise. Along with branching, a player-driven story, By Dawn offers more than enough suspense and survival horror action to keep you adrenaline junkies on the edge of your seats. You can score this critically acclaimed PS4 exclusive for as cheap as \$15 from Walmart. Make sure you put on this gaming headset to take full advantage of the horror.
By Dawn – \$10
Dark Souls III: Fire Fades – \$20
If you've completed Dark Souls II and fancy another challenge, then you owe it to yourself to play the finale. Dark Souls III is the final sendoff of the FromSoftware award-winning trilogy, and it provides the difficulty, terror, chilling atmosphere, and awesome game that the series is known as it plunges you deep into another ruined, labyrinthine world. The final title of the Dark Souls series is not a new wheel – and with a formula that works like this, it's not bad at all. Gamers who have been waiting for the price drop are in luck as well.
Dark Souls III: Fire Fades is now available from Amazon and GameStop for only \$20.
Dark Souls III: Fire Fades - \$20
Bloodborne - \$17
If you can't get enough anger-inducing masochistic game Dark Souls, then you have to play Bloodborne, another fantastic entry from creative minds fromSoftware. This name takes Lovecraftian horror to a whole new level and is set in a unique gothic fantasy world where you battle it with sick, mad, and nightmarish creatures. Collaborate with up to two of your friends to explore and fight your way across many dungeons where great treasures – and great horrors – await you. Unlike the multipiaform Dark Souls series, this game is limited to playstation 4 and has one of the standout titles in this system that you can't find on Xbox One. Grab this must-have action RPG site for \$20, and brace yourself for landing into madness.
Bloodborne – \$17
