I do loads, suit services, sales, and a cake decorated. When you are working I realize I'm able to work at a very face pace. I'm looking for another job to get more experience, and pay for expense experience mHonestly a super fun experience. It's a great job to have fun, while ensuring that customers have a great experience. Usually a typical day should I open the store. I would refine the iced cream tubes, count the register, restore the fridge, and open the store. Management was great. They were really open and flexible. Get a different customer service jobl got the job for temporary reasons to build some money for a trip I took. It was pretty much what I expected with the exception of terrible franchise owners who didn't give any instructions on their duty to work and was always gourd staff. It's a tough job, you've got to always something to do, there was no break, the home owner was very strict. Other than the work was fun because you get to know different people and get to know them. This is a better place to work if you don't have any experience. Store very humble. It understands your problems if you need any emergency holidays. Had a great experience setting pleasant customer and Staff Learn home to cook and design them became an expert in making cake working and fun working with ice cream! Working at Baskin-Robbins, I worked registered in cash, served customers, took cake orders and cake decorated, and cleaned the store after closing the programs. The hardest part of the job was just to learn some of the recipes, but as is to expect when you first start working. The most enjoyable part of the job has to be side of customer service, in which you get to interact with customers and offer them great service and ice cream! They have good ice cream but poor management. They could pay you more but they choose not to and you don't really have any other job opportunities when working with this company. Every Baskin Robbins differentiated worked in two different BR's. The first was a great experience. My boss was one of my favorite people I worked for. I was offered by the team and everything was ordered to the point of sometimes being overkill. The opposite for the second BR. Unsantary, disorganized, managed from a distance, and nobody seemed to change it. I didn't support in the organized efforts. They just watched my st and said that this too much work... I wouldn't do that unless I had to. So much gossip. Experience work pain all the time. Great place to work. Also depends on the location.great jemet. great workers' colleagues. great environment. great plcae. good place to work. should work here you should leave Baskin-Robbins, what would be the reason?
