As a school that tries to develop rich, research-based learning experiences, one of the questions that often emerges is how we handle research and mathematics. Our thinking around research-based teaching and learning is that it develops disciplined ways of being and thinking. In other words, research is more than just about students doing projects.Rather the purpose of taking a research approach is to structure learning so that students can deal with problems, generate possible solutions, share and improve each other's ideas, and demonstrate their understanding in various ways. The ultimate goal of the research is for students to develop a deep understanding of key ideas and concepts. Seen in this way, the purpose of strong mathematical research is to get students to think, act and work as mathematicians, not just doing math. This movement of students learning maths to students learning to think about how a mathematician can be a difficult concept to understand. jump_7.1_p_1-18.pdfFile Sizes: 73 kbFile Type: pdfDownload File jump_7.1_p_22-49.pdfFile Size: 87 kbFile Type: pdfLoad file jump_7.1_p_51-97.pdfFile Size: 108 kb File type: pdf Download File jump_7.1_p_97-122.pdfFile Size: 76 kbFile Type: pdfLoad file jump_7.1_p_127-165.pdfFile Size: 87 kbFile Type: pdfLoad file jump_7.1_p_166-203.pdfFile Size : 83 kbFile Type: pdf Download file jump_7.1_p_205-214.pdfFile Size: 62 kbFile Type: pdfDownload File jump_7.2 2_p_1-40.pdfFile Size: 251 kbFile Type: pdfDownload File jump_7.2_p_42-56.pdfFile Size: 2 File types kb152: pdf Download file jump_7.2_p_58-66.pdf File size: 202 kbFile Type: pdf Download file jump_7.2_p_170-180.pdfFile Sizes : 142 kb File type: pdfDownload File jump_7.2_p_69-76.pdf File size: : 139 kbFile Type: pdf Download file jump_7.2_p_77-90.pdfFile Size: 202 kbFile Type: pdfDownload File jump_7.2_p_91-101.pdfFile Size: 148 kbFile Type: pdfDownload File jump_7.2_p_105-131.pdfFile Size: 2 File types kb172: pdf Download file jump_7.2_p_132-144.pdfFile Size : 203 kbFile Type: pdf Download file jump_7.2_p_146-154.pdfFile Type: 142 kbFile Type: pdfDownload File jump_7.2_p_182-194.pdf File size: : 191 kbFile Type: pdfBaixa file jump_7.2_p_157-168.pdfFile Size: 143 kbFile Type: pdf Download file math7_-_ns_-_unit1_exponents.pdfFile Size: 28 kb File type: pdfDownload File math7_-_ns_-_unit1_factors_3worksheet.pdf Size: : 307 kbFile Type: pdf Download file math7_-_ns_-_unit1_finding_factors.pdfFile Size: kbFile Type: pdf Download file math7_-_ns_-_unit1_greatest_common_factor.pdfFile Size: 93 kbFile Type: pdfLoad file math7_-_ns_-_unit1_least-common-multiple.pdfFile Size : 56 kbFile Type: pdf Download file math7_-_ns_-_factors_and_gcf_problem_solving.pdfFile Size: 197 kbFile Type: pdfDownload File File File Size: 70 kbFile Type: docxDownload File math7_-_ns_-_rate_extra_practise_questions.docxFile Size: 21 kbFile Type: docxDownload File math7_-_ns_-_ratio_20_word_problems.pdfFile Size: 189 kbFile Type: pdfDownload File equivalent_ratios 20 kbFile Sizes: 20 kbFile Type: pdf Download file 2_and_3_term_ratios.pdfFile Size: 555 kbFile Type: pdf Download file rates_and_ratios_1.pdfFile Size: 43 kbFile Type: pdfDownload File 2_unit_rate_work.pdfFile Size: 34 6 kbFile Type: pdf Download file rates_worksheet_3.pdfFile Size: 373 kbFile Type: pdfDownload File math7_-_m_-_measurement_units_cm-m.pdf Size: 11 kbFile Type: pdfDownload File math7_-_m_-_measurement_units_km: 11 kb File type: pdf Download file math7_-_m_-_measurement_units_kg-g.pdf Size: 11 kb File type : pdfLoad file 5.2 Triangle Area.pdfFile Size: 147 kbFile Type : pdfDownload File NELSON textbook Answers.pdfFile Size: 1041 kbFile Type: pdfDownload File MATH7 -
