I just realized that I never got a service logbook. The seller told me that these cars no longer come with the logbooks. I cannot imagine that this would be the can anyone confirm? Thank you very much! I can't say for the 16, but my 14 came with one, and all dealers inspection/pre-sale activities were filled in and signed/stamped. - My 2016 did NOT come with a Service History Book. Also no printed user manual, just a CD. You can go online and request a printed copy of the FULL User's Guide for free. I did this and received a few weeks later. My 2016 came with a quick start owner's manual, but it didn't have the detail I was looking for. Another reason you'll be surprised about is that Honda generally doesn't have recommended service intervals (miles and/or time) for routine maintenance. You want you to simply use the car's computer to tell you when routine maintenance tasks need to be performed. It's a different world than our old year 2006, which we replaced earlier this year with 2016. - Discussion Starter • #4 • Sep 16, 2016 Thank you for answering people. I am really surprised that this no longer exists, how do we assume to document the service for our cars? I use an MS Word document and have an entry with date and mileage for each piece of service I provide for my vehicles. I would fill this book in two years. - It's not called Service Manual! This is a very different document. - I find that most traders no longer bother to document the services, which is perhaps why they have stopped providing one. I have to ask them to document services, and they just have to put a stamp on them. They don't even write in what's been done. Most services at merchants are also stored in an electronic database. If you look at Carfax, it shows the maintenance performed. I find it easier to log what I do and keep the receipts for repairs or maintenance. Unfortunately, most car buyers don't even ask to see this when I've sold used vehicles I've owned. I think most people are not as demanding about caring for their cars as most people are on this forum. Just my two cents. - I recently drove a loan player 2016 Acura. In the glove box the package was very thick with the instruction manual and other books. I think the maintenance logbook was there as well. I know for sure that my 2012 Acura has maintenance logbook, even though all services are displayed through the dashboard. If you shorten the long-breathed answer, your trader will most likely lie, but isn't that superfluous?? - Can you help me find the link from which I can get a printed manual? Try here (, but it's only pdf. I think I had to create an account on the Honda owner's website, registering the Vin of my new van in my account. As soon as I did, I was able to place an order for my free printed copy. I don't have the URL at hand. I'm sorry. - This website has a way to electronically record what I do myself. It really isn't much different than writing it down in a book with one big exception. All work of a dealer is automatically displayed in the maintenance documents. It's a little chunky to use, but it works for a plate. Getting the information back from this site and sharing it with another person can be more difficult than writing it in a book or including it in Word. Good luck with your search! I don't have the URL at hand. I'm sorry. No need to register, you need To VIN
