Vehicle ManualThe Ultimate Driving MachineNewest Added: JGP628SEJ1SS GTL17JBWERBS 2007 BMW M5 Sedan JTP56AA4AA CHARGER323i 3 28i 328xi 335iOpening and closingKeys/remote controlsEach remote control includes a rechargeable battery that automatically charges when it is in the ignition lock while the car is being driven. Use each remote control at least two per year for longer road trips to the charging status of the batteries. In cars with easy access*, the remote control contains a replaceable battery, refers to page 38.De settings that are called and implemented when the car is unlocked, depend on which remote control is used to unlock the car, refers to Personal Profile, page 28.In addition, information about service requirements is stored in the remote control, refer to Service Information in the remote control, page 219.Personal Profile concept You set many of your BMW's features to meet your personal preferences and preferences. Without any action on your part, Personal Profile ensures that most of these settings are saved for the remote control currently in use. When you unlock the car, the remote control used for the purpose is recognized, and the settings stored for it are called and deployed. This means that your personal settings will be activated for you, even if your car has been used by someone else with a different remote control and associated settings in the meantime. The individual settings are stored for up to three remote controls. Personal profile settingsFor more information about specific settings, please refer to the specified pages. - Response of the central locking system when the car is unlocked, refer to page 29- Automatic locking of the vehicle, refer to page 32- Automatic call-up * of the driver's seat and exterior-mirror positions after unlocking, refer to page 48- Functions assigned to the programmable buttons * on the steering wheel, refer to page 51- 12h/24h mode of the clock, refer to page 81- Date format, refer to page 82 Clarity of the Control Display, refer to page 85- Manufacturer: BMW. Thorough familiarity with your vehicle will provide you with enhanced control and safety when you drive it. We therefore have this request: Take the time to read this guide and familiarize yourself with the information we have gathered for you before you start in your new vehicle. It contains important data instructions intended to help you obtain maximum use and satisfaction from your BMW's unique range of technical fea-tures. The manual also includes maintenance information designed to improve operational safety and contribute to the most important- taining of the value of your BMW over a longer life. This guide is supplemented by a service and warranty information booklet for U.S. models or a warranty and service guide book for Canadian Canadian We wish you an enjoyable driving experience. The quickest way to find specific topics is to refer to the detailed index at the back of the manual. If you want to get an initial overview of your vehicle, you'll find it in the first chapter. If you sell your BMW one day, don't forget to hand over the Manual too; it's an important part of your vehi-cle. Additional sources of information If you have other questions, your BMW centre will be happy to advise you at any time. Information about BMW, for example on technical aspects, can also be found on the Internet on www.bmwusa.com. Symbols Used Provide precautions that need to be taken precisely to avoid the possibility of personal injury and serious damage to the vehicle.< Provides information that will help you obtain the optimal benefit of your vehicle and enable you to take more effective care of your vehicle.< Refer to measures that can be taken to protect the environment.<: *Provides special equipment, land-spe-cific equipment and optional extras, as well as equipment and features not yet available at the time of printing. ... Symbols on vehicle parts Indicate that you should consult the riot evant section of this manual for information about a particular part or assembly. Page 7 of 272 5Compobrication At a glance checks Driving tips Communication Navigation Entertainment Mobility The individual vehicle When ordering your BMW you have chosen different equipment. This Guide describes the full range of options and equipment available with a specific BMW model. Please note that the manual may contain information about accessories and equipment that you have not provided for your own vehicle. Sections that describe options and special equipment are characterized by asterisks* to help you identify possible differences between the descriptions in this guide and your own vehi-cle's equipment. If the equipment in your BMW is not described in this manual, please refer to the accom-panying Additional Manuals. Editorial notice BMW implements a policy of continuous, ongoing development that is designed to ensure that our vehicles continue to embody the highest quality and safety standards combined with advanced, state-of-the-art technology. For this reason, in exceptional cases, features described in this guide may differ from those on your vehicle. For your own safety Maintenance and repair Advanced technology, such as the use of modern materials and powerful electron ics, requires specially adapted maintenance and repair methods. You should therefore do the associated work on your vehicle per- formed only by your BMW center or at a workshop that works according to BMW repair pro-cedures with correspondingly trained staff. If this work is not performed prop-erly, there is a danger of subsequent damage and related safety hazards.< Parts and Accessories For your own safety, use real parts and accessories approved by BMW. When you buy accessories that have been tested and approved by BMW and original BMW Parts, you'll also get assurances that they've been thoroughly tested by BMW to ensure optimal performance when installed on your vehicle. BMW guarantees that these parts are free of defects in material and craftsmanship. BMW accepts no liability for damages resulting from the installation of parts and accesses that have not been approved by BMW. BMW cannot test every product from other manufacturers to check that it can be used safely and without risk on a BMW for its operation, its operation or its occupants. Original BMW Parts, BMW Accessories and Other Products by BMW, along with professional advice on the use of these items, are available at all BMW centers. Installation and operation of non-BMW approved accessories such as alarms, radios, amplifiers,

radar detectors, wheels, suspension components, brake dust shields, brake dust shields, including the operation of a mobile phone from within the vehicle without the use of an externally mounted antenna, or transceiver equipment, e.g. CDs, walkie-talkies, ham radio or sim-ilar accessories, can cause major damage

Page 8 of 272Notes 6 to the vehicle, endanger safety, interfere with the vehicle's electrical system or affect the validity of BMW's limited warranty. See your BMW centre for more information. < Maintenance, replacement or repair of emission control devices and sys-tems can be performed by a car repair device or individual using a cer-tified automotive part.< California Proposition 65 warning California law requires that we have the following warning: Engine exhaust gases and a wide range of auto parts and parts, including parts found in the interior, found in a vehicle or contain or emit chemicals known to cause cancer and birth defects and cause reproductive damage. In addition, certain liquids in vehicles and certain component wear products contain or emit chemicals known to cause cancer and birth defects or other reproductive damage. Battery stations, terminals and related accesso-ries contain lead and lead connections. Wash your hands after handling. Used motor oil contains chemicals that have caused cancer in laboratory animals. Always protect your skin by thoroughly washing with soap and water.< Service and warranty We recommend you read this publication thoroughly >. <3> <6>New Vehicle Limited Warranty >Rust Perforation Limited Warranty >Federal Emissions System Defect Warranty >Federal Emissions Performance Warranty >California Emission Control System Limited Warranty Detailed information about these warranties is included in the U.S. Model Service and Warranty Information Booklet or in the Warranty and Service Guide Booklet for Canadian Models. Reporting safety errors for U.S. customers The following applies only to vehicles owned and operated in the U.S. If you believe that your vehicle has a defect that could cause a crash or cause injury or death, you should immediately notify the National Highway Traffic Safety Administration, NHTSA, in addition to BMW's notification of North America , LLC, P.O. Box 1227, Westwood, New Jersey 07675-1227, Telephone 1-800-831- 1117. If NHTSA receives similar complaints, it can open an investigation, and if it determines that a safety defect exists in a group of vehicles, it can order a recall and recovery campaign. However, Nh TSA cannot be involved in individual problems between you, your dealer or BMW of LLC. To contact NHTSA, call the Vehicle Safety Hotline toll-free at 1-888-327-4236 (TTY: 1-800-424-9153); to ; or write to: Adminis- trator, NHTSA, 400 Seventh Street, SW., SW., DC 20590. You may also obtain other motor vehicle safety information from page 9 of 272 7Reference At a glance Checks Driving Tips Communication Navigation Entertainment Mobility for Canadian customers Canadian customers who wish to report a safety-related defect to Transport Canada, Defect Investigations and Recalls, can call 1-800-333-0510 toll-free from anywhere in Canada or 1-613-993-9851 from the Ottawa region and from other countries, or contact Transport Canada by mail at: Transport Can- ada, ASFAD, Place de Ville, C, 330 Sparks Street, Ottawa, ON, K1A 0N5. You can also obtain other information about motor vehicle safety on page 10 of 272 272
