another alternative skin to the black dress (with a golden dragon) and standard Legend outfit. It's very simple. Just replace all DDS files of the standard Legend outfit (normal, British flag, pink, black or blue; depends on which outfit you want to replace) or the dress that looks like the alternative. But this time it's normal mode only. In the next generation, the textures don't work. UPDATE: Some new sexy Dress Recolors and Skins are available now (with readme file). Only textures in normal mode now. Feel free to comment or request! Most of the screens of the recolors are in the thread (see Page 11 & amp; 20 and some more) UPDATE: TLR Online provides some web space for us to upload the upcoming Mods and Textures for you all. First, I would like to thank TLR for supporting us. UPDATE (02/05): New download site available!!!!! Elen spent some time creating a new Skinning site with Downloads and Tutorials. Now you can see screenshots of the outfits you want to download. Thx to Elen to put a lot of work on this site! YOU GET ALL THE FILES HERE: If you want to share your work, please send some screens in this thread and send your files to Elen. You'll find her email on the website. Take a look at Submit your outfit. It would be nice of you to include a little important and some Ingame Monitors (front and back) in each package. Its enough to write down texture numbers to be replaced with your changed ones. Thx No Topless & Enough to write down texture numbers to be replaced with your changed ones. Thx No Topless & Enough to William Screens available on the site): I made a little clothes Patch for those who can't work with ripper or those who can't work with rip
in Germany Post: 437 Oh it gets more complicated. The normal state of leg textures seems to be split. It is not fair With what options should I save the files, in order to copy them in bigfile without an error of ripper? want to see that dress, also 09-04-06, 14:56 #12 Relic Hunter Join Date: Mar 2006 Location: Montreal, Quebec Posts: 8646 Where is the program that we can use to edit skins (the program that searches in bigfile) 09-04-06, 16:34 #13 Historian Join Date: Mar 2006 Ranking: Somewhere in Germany Posts: 437 LOOK AT MY EDITED FIRST POST GUYS! 09-04-06, 16:59 #14 Relic Hunter Join Date: Mar 2006 Location: Montreal, Quebec Posts: 8646 Nice job, beautiful! 09-04-06, 17:03 #15 Archaeologist Join Date: Feb 2004 Location: England. Posts: 1013 I think the red dress is actually nicer than the black one, it looks cooler and stands out more against the night sky in Japan 09-04-06, 17:11 #16 Hobbyist Join Date: Apr 2006 Posts: 9 have you figured out what textures are used by snowsuit and Outfit? I created new skins for them, but can't find the right textures Thanks! 09-04-06, 17:35 #17 Hobbyist Join Date: Apr 2006 Location: London Posts: 51 In Lara's flashback level, you get to play how how to get to play how how to do this tell me. I thought you would have to either change some files around or make a skin for it, but I don't know anything about this if you can help me please do. Last edited by Jacktille review of the dress only work in the next gen mode, and I try to make it work in normal condition, too. I found the normal state textures of the dress of the game. Those of the dress only work in the next gen mode, and I try to make it work in normal condition, too. I found some alternative Outfit textures because the program tells me File too great Does anyone know what I can do???? Here are some BETA Ingame Pics (all normal mode. you see next gen in my first post):
Maybe I can send someone (HEVON???) dds file so he saves the file in a compressed format or with a smaller number of mipmaps so I can replace it. Or just tell me what I need to do to get a smaller file. Last edited by TKone; 09-04-06, 18:47 #19 Administrator Join Date: Jun 2000 Posts: 58731 It looks incredible TKone. Nice work! 09-04-06, 18:50 #20 Historian Join Date: Mar 2006 Ranking: Somewhere in Germany Posts: 437 Quote: Originally Posted by thr online that looks incredible TKone. Nice work!
