The only manual I know is the Seloc Manual, which seems to be readily available online from different vendors. I have mine from a company here in Ireland called Marine parts direct. There are also manuals on the iboats.com website, where there is a special MerCruiser forum. The Seloc manual often comes in for some criticism for its general lack of clarity, which I tend to agree with. The pictures are often grainy, black and difficult to understand. I'm sure others will be in bell. +1 for Martin's Link . You can also try iboats.com. If you give them the serial numbers, they have free pdfs of the factory service manuals.:Encouragement: Thank you to everyone for your advice and guidance You can get the second-hand factory service manuals from the U. on eBay. Expensive, but they are very good. Can someone point me in the right direction to get a service manual for a 5.7 MerCruiser, please I can give you a manual PM, you just need a few more details, what year is the engine it carb? Efi? or MPI? I can give you a manual PM, just need a few more details, in what year is the engine is it carb? Efi? or MPI? That is a very nice thank you. I have the 5.7 alpha a carb model on a Gen 2 outdrive. I hope this helps child greetings Mark On this page you can download free service & repair manuals for such cistle drive engines like MerCruiser. The full list of Mercury MerCruiser engines covered in this guide is below: Mercury MerCruiser offers a range of gasoline engines with angled tilting speakers (star drives) and reverse (inboards) with high power from 135 to 425 hp. All carburetor engines are equipped with an exclusive TKS start system for comfort. You do not need suction, no swap, no prefill fuel. Just turn the key in the ignition and the engine is running. All motors with multipoint injection system (MPI) are equipped with an ECM 555 electronic control system developed by Motorola. Multipoint fuel injection engines are equipped with a SmartCraft measurement and control system that controls engine operating conditions and on-board equipment. MerCruiser, together with Cummins, produces diesel engines under the Cummins MerCruiser Diesel (CMD) brand. Diesel engines can also be used with turntables (star drives) as well as in the hedges (inboards). The company produces the widest range of tilting and rotary speakers in the industry, with models for all types of boats, from sports to pleasure and racing. Whether the robust Alpha and Bravo speakers with gentle, silent gear shifting, the durable Bravo X speakers are all designed and manufactured in tireless and responsible work to ensure high performance and long-term engine life. With advanced technologies that exceed all expectations for reliability and performance, Mercury MerCruiser stationary engines will have every chance to maintain leadership in the field of water equipment propulsion systems in the future. Equipment.
